14 CFR Part 71

[Docket No. FAA-2014-0214; Airspace Docket No. 14-AGL-10]

Amendment of Class D and E Airspace; Grand Forks, ND

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Technical amendment; correction.

SUMMARY: This action amends a typographical error in the effective date of a final rule technical amendment correction published in the **Federal Register** of February 6, 2014, that amends Class D and E airspace in the Grand Forks, ND, area. The effective date year is corrected from February 6, 2013, to February 6, 2014.

DATES: Effective date: 0901 UTC, May 9, 2014.

FOR FURTHER INFORMATION CONTACT: Scott Enander, Central Service Center, Operations Support Group, Federal Aviation Administration, Southwest Region, 2601 Meacham Blvd., Fort Worth, TX 76137; telephone 817-321-7716.

SUPPLEMENTARY INFORMATION:

History

On February 6, 2014, a final rule technical amendment correction was published in the **Federal Register** amending Class D and Class E airspace in Grand Forks, ND (79 FR 7055, Docket No. FAA-2013-0950). The document became effective upon publication. Subsequent to publication, the FAA found the document showing the effective date as being one year prior to publication; February 6, 2013, instead of February 6, 2014.

Since this is an administrative change and does not affect the boundaries, altitudes, or operating requirements of the airspace, I find that notice and public procedure under 5 U.S.C. 553(b) is impracticable and contrary to the public interest. Also, as immediate corrective action is necessary to show the correct effective date to avoid confusion in the publication of the

amendment to FAA Order 7400.9X, Airspace Designations and Reporting Points, dated August 7, 2013, and effective September 15, 2013, the FAA finds good cause, pursuant to 5 U.S.C. 553(d), for making this amendment effective in less than 30 days.

Final Rule Correction

Accordingly, pursuant to the authority delegated to me, in the **Federal Register** of February 6, 2014 (79 FR 7055), the date, under the **DATES** heading on page 7056, column 1, lines 9 and 10, is corrected to read:

DATES: Effective Date: 0901 UTC, February 6, 2014.

Issued in Fort Worth, Texas, on April 2, 2014.

Manager, Operations Support Group, ATO Central Service Center.

[Docket No. FAA-2014-0135; Airspace Docket No. 14-AGL-4]

Amendment of Class E Airspace; Grand Forks, ND

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, technical amendment.

SUMMARY: This action amends Class E airspace within the Grand Forks, ND, area by amending the geographic coordinates of the Grand Forks International Airport ILS Localizer. The boundaries and operating requirements of the airspace remain the same.

DATES: Effective date: 0901 UTC, June 9, 2014. The Director of the Federal Register approves this incorporation by reference action under 1 CFR Part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Scott Enander, Central Service Center, Operations Support Group, Federal Aviation Administration, Southwest Region, 2601 Meacham Blvd., Fort Worth, TX 76137; telephone 817-321-7716.

SUPPLEMENTARY INFORMATION:

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by

amending the geographic coordinates of the Grand Forks International Airport ILS Localizer from “(lat. 47°53’43” N., long. 97°10’52” W.)” to “(lat. 47°57’43” N., long. 97°10’52” W.)”, to coincide with the FAA’s Aeronautical database. Since this is an administrative change and does not affect the boundaries, altitudes, or operating requirements of the airspace, I find that notice and public procedure under 5 U.S.C. 553(b) is impracticable and contrary to the public interest.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace in the Grand Forks, ND area.
