[Docket No. FD 35818]

Dakota, Minnesota & Eastern Railroad Corporation—Trackage Rights Exemption—Rapid City, Pierre & Eastern Railroad, Inc.

Rapid City, Pierre & Eastern Railroad, Inc. (RCP&E), pursuant to a written trackage rights agreement, has agreed to grant overhead trackage rights to Dakota, Minnesota & Eastern Railroad Corporation d/b/a Canadian Pacific (DM&E)¹ between milepost 231.5+/- near Tracy, Minn., and milepost 378.4+/- near Wolsey, S.D., a distance of approximately 146.9 miles.²

Recently, RCP&E received authority to acquire from DM&E and to operate 670 miles of rail lines. See *Rapid City, Pierre & E.R.R.—Acquis. and Oper. Exemption Including Interchange Commitment—Dakota, Minn. & E.R.R.*, FD 35799 (STB served Mar. 27, 2014).³ The purpose of this verified notice of exemption is to allow DM&E: (1) To continue to handle overhead grain trains in conjunction with BNSF Railway Company (BNSF) that are currently operating between Florence, Minn., and points on DM&E beyond Tracy; and (2) to handle non-revenue ballast trains, including the right to interchange those trains with BNSF or other carriers at Wolsey.

This transaction is proposed to be consummated on or after May 25, 2014, the effective date of the exemption (30 days after the exemption was filed), and after the consummation of the acquisition of the lines by RCP&E in Docket No. FD 35799.

As a condition to this exemption, any employees affected by the trackage rights will be protected by the conditions imposed in *Norfolk & Western Railway—Trackage Rights—Burlington Northern, Inc.*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Railway—Lease & Operate—California Western Railroad*, 360 I.C.C. 653 (1980).

¹In *Canadian Pacific Railway—Control—Dakota, Minnesota & Eastern Railroad*, FD 35081 (STB served Sept. 30, 2008), the Board approved an application allowing Canadian Pacific Railway Company to acquire indirect control of DM&E and DM&E's wholly owned rail subsidiary, Iowa, Chicago & Eastern Railroad Corporation.

²A redacted and unexecuted trackage rights agreement between RCP&E and DM&E was filed with the notice of exemption. An unredacted version was filed under seal along with a motion for protective order, which will be addressed in a separate decision.

³Recently, the Board received petitions seeking to revoke this exemption. The Board will address the petitions to revoke the exemption in a subsequent decision.

This notice is filed under 49 CFR 1180.2(d)(7). If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must be filed by May 16, 2014 (at least 7 days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to Docket No. FD 35818, must be filed with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on W. Karl Hansen, Stinson Leonard Street LLP, 150 South Fifth Street, Suite 2300, Minneapolis, MN 55402.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice of the proposed collection of information before submitting the proposed collection of information to OMB for approval. U.S. Coinage Practices Survey

The Coin Modernization, Oversight, and Continuity Act of 2010, Public Law 111–302, section 2(b)(3), authorizes the Secretary of the Treasury to consider such factors he deems appropriate and in the public interest when preparing a report and recommendations to Congress on the Nation's circulating coins.

Understanding the public's use and perception of United States circulating coins and coin usage is necessary for the United States Mint to carry out its mission to mint and issue circulating coins in amounts that the Secretary of the Treasury determines are necessary to meet the needs of the United States and to prepare recommendations to Congress, as authorized by Public Law 111–302. The information collected will cover the following topics concerning the use of alternative metals in the production of circulating coins:

1. Metallic content
2. color
3. design change
4. height/relief of elements
5. density/weight
6. related savings to taxpayer
7. related cost to industry

The data will be used to understand the public's use and perception of circulating coins and specific factors relating to alternative metal materials under consideration. The purpose is to analyze options and propose recommendations for possible changes to the nation's circulating coins. To obtain this information, the United States Mint will conduct both qualitative and quantitative research.

Qualitative Research

Focus Groups

Focus groups provide an important role in gathering information because they allow for a more in-depth understanding of the public's attitudes, motivations, and feelings than do
