[EPA-R03-OAR-2014-0268; FRL-9910-49-Region-3]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Update of the Motor Vehicle Emissions Budgets for the Allentown-Bethlehem-Easton 1997 8-Hour Ozone National Ambient Air Quality Standard Maintenance Area**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to the Commonwealth of Pennsylvania's (Pennsylvania) State Implementation Plan (SIP). The revisions consist of an update to the SIP approved Motor Vehicle Emissions Budgets (MVEBs) for nitrogen oxides (NO_x) for the 1997 8-Hour Ozone National Ambient Air Quality Standard (NAAQS) SIP for the Allentown-Bethlehem-Easton 1997 8-Hour Ozone NAAQS Maintenance Area (Allentown Maintenance Area). Also, part of this SIP revision is an update to the point source inventory for NO_x. In the Final Rules section of this **Federal Register**, EPA is approving the Commonwealth's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by June 16, 2014.

II. Background

On March 28, 2014, FMCSA published an SNPRM (79 FR 17656).

This SNPRM included a proposal that would improve commercial motor vehicle (CMV) safety and reduce the overall paperwork burden for both motor carriers and drivers by increasing the use of ELDs within the motor carrier industry, which would in turn improve compliance with the applicable Hours of Service (HOS) rules. Specifically, this rule proposed to: (1) Require new technical specifications for ELDs that address statutory requirements; (2) mandate ELDs for drivers currently using record of duty status; (3) clarify supporting document requirements so that motor carriers and drivers can comply efficiently with HOS regulations, and so that motor carriers can make the best use of ELDs and related support systems as their primary means of recording HOS information and ensure HOS compliance; and (4) adopt procedural and technical provisions aimed at ensuring that ELDs are not used to harass vehicle operators.

On May 7, 2014 the Commercial Vehicle Safety Alliance (CVSA) requested the Agency for an extension of the comment period for the SNPRM. A copy of the request is included in the docket as comment FMCSA-2010-0167-0858 (available at: <http://www.regulations.gov/#!documentDetail;D=FMCSA-2010-0167-0858>). CVSA believes that due to the complexity and significance of the rulemaking, including the new technical standards, the public comment period should be extended by 30 days.

The FMCSA acknowledges CVSA's concerns. After reviewing the request, FMCSA has decided to grant a 30-day extension, to June 26, to provide all interested parties additional time to submit comments on this rulemaking.

Issued on: May 12, 2014.

Larry W. Minor,

Associate Administrator for Policy.
