

areas not effectively sampled using a bottom trawl.

MA DMF requests exemption from lobster gear regulations to allow for closed escape vents in order to target all lobsters, including lobsters that do not satisfy Federal minimum size regulations for retention of lobster catch. The escape vent must remain closed in order to accurately quantify both juvenile and adult lobster abundance within the study area. MA DMF is also requesting exemptions from the lobster trap limit, in order to allow participating vessels to retain on board experimental lobster traps that would cause vessels to exceed the 800-trap limit for Lobster Management Areas (LMAs) 1 and 2. Federal lobster regulations also require a trap tag to be fixed to each active lobster trap; however, the survey traps will remain separate from each vessel's commercial fishing traps, and would be hauled during sampling trips only. Therefore, the survey traps would not be fixed with the conventional lobster trap tags. However, there would be an identification tag fixed to each survey trap for the duration of the study.

MA DMF is also requesting exemptions to allow one Federal lobster permit holder to be exempt from the management area designation requirements, to allow the permit holder to fish experimental traps in LMA 2 while having an LMA 3 on his Federal permit. This exemption will allow the vessel to set survey traps in an area not designated on his permit. This permit holder would not be allowed to commercially fish and land lobsters for sale with traps in LMA 2.

Site selection would be based on a random, stratified sampling design, consistent with standardized methodology used to perform lobster surveys. All catch during dedicated research trips would be retained on-board for a short period of time to allow MA DMF staff to record the following information: The number of lobsters caught; the size (carapace length in mm) and sex of each lobster; the hardness of each lobster shell; and the presence/absence of lobster parts, shell damage, shell disease, and eggs in female lobsters.

If approved, the applicant may request minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the

scope of the exempted fishing activity would be prohibited.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 12, 2014.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meetings.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will hold a meeting of the Standing, Special Reef Fish and Ecosystem Scientific and Statistical Committees (SSC).

DATES: The meetings will be held from 9 a.m. on Tuesday, June 3 until 12 noon, Thursday, June 5, 2014.

ADDRESSES:

Meeting address: The meetings will be held at The Biltmore Hotel, 1200 Anastasia Avenue, Coral Gables, FL 33134.

Council address: Gulf of Mexico Fishery Management Council, 2203 North Lois Avenue, Suite 1100, Tampa, FL 33607.

FOR FURTHER INFORMATION CONTACT: Mr. Steven Atran, Senior Fishery Biologist, Gulf of Mexico Fishery Management Council; telephone: (813) 348-1630; fax: (813) 348-1711; email: steven.atran@gulfcouncil.org.

SUPPLEMENTARY INFORMATION: The items of discussion in the individual meeting agendas are as follows:

Standing and Ecosystem SSC Agenda, Tuesday, June 3, 2014, 9 a.m. Until 12 Noon CST

1. Adoption of Agenda
2. Approval of March 28, 2013 Standing and Ecosystem SSC summary minutes
3. GOM Ecosystem Assessment Status Report

Standing, Special Reef Fish, and Ecosystem SSC Agenda, Tuesday, June 3, 2014, 1:30 p.m. Until 5 p.m., Wednesday, June 4, 2014, 8:30 a.m. Until 5 p.m., and Thursday, June 5, 2014, 8:30 a.m. Until 12 Noon

4. Adoption of Agenda
5. Approval of January 23-24, 2014 Standing and Special Reef Fish SSC summary minutes
6. SEDAR 33 Benchmark Assessments
 - a. Gag
 - b. Greater amberjack
7. Discussion on Integrating Ecosystem Considerations into SEDAR Assessments
8. Red Snapper Slot Limit and Hook Size Analysis
9. Selection of Participants for a Workshop to Evaluate MSY and ABC control Rule Based Benchmarks for Penaeid Shrimp
10. Selection of SSC representative at June 23-27, 2014 Council meeting (Key West)
11. Other business

The Agenda is subject to change, and the latest version will be posted on the Council's file server, which can be accessed by going to the Council Web site at <http://www.gulfcouncil.org> and clicking on FTP Server under Quick Links. The meetings will be webcast over the Internet. A link to the webcast will be available on the Council's Web site, <http://www.gulfcouncil.org>. Although other non-emergency issues not on the agenda may come before the Scientific and Statistical Committees for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during these meetings. Actions of the Scientific and Statistical Committees will be restricted to those issues specifically identified in the agenda and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kathy Pereira at the Council Office (see **ADDRESSES**), at least 5 working days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 13, 2014.

RIN 0648-XD292

Fisheries of the Gulf of Mexico and South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 38 assessment process webinars for Gulf of Mexico and South Atlantic King Mackerel.

SUMMARY: The SEDAR 38 assessment of Gulf of Mexico and South Atlantic King Mackerel will consist of a workshop and series of webinars. This notice is for the two additional webinars associated with the Assessment portion of the SEDAR process. See **SUPPLEMENTARY INFORMATION**.

DATES: Two assessment webinars for SEDAR 38 will be held from 1–4 p.m. on Tuesday, June 3, 2014 and from 1–4 p.m. on Wednesday, June 18, 2014.

ADDRESSES:

Meeting address: The meetings will be held via webinar. The webinar is open to the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT** below) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; telephone: (843) 571-4366; email: julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-

step process including: (1) Data Workshop; (2) an Assessment Workshop and a series of webinars and (3) Review Workshop. The product of the Data Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses; and describes the fisheries. The Assessment workshop and webinars evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment Process webinars are as follows:

1. Using datasets and initial assessment analysis recommended from the Assessment Workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.

2. Panelists will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Marine Mammals; File No. 14327

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit amendment.

SUMMARY: Notice is hereby given that the National Marine Fisheries Service's National Marine Mammal Laboratory (NMML), 7600 Sand Point Way, Seattle, WA 98115 [Principal Investigator: Thomas Gelatt, Ph.D.], has applied for an amendment to Scientific Research Permit No. 14327.

DATES: Written, telefaxed, or email comments must be received on or before June 16, 2014.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the *Features* box on the Applications and Permits for Protected Species home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 14327-01 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to
