Federal Register

Vol. 79, No. 95

Friday, May 16, 2014

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

### Notice of Public Meeting of the Assembly of the Administrative Conference of the United States

**AGENCY:** Administrative Conference of the United States.

**ACTION:** Notice.

**SUMMARY:** Pursuant to the Federal Advisory Committee Act (5 U.S.C. App.), the Assembly of the Administrative Conference of the United States will hold a meeting to consider four proposed recommendations and to conduct other business. This meeting will be open to the public.

**DATES:** The meeting will take place on Thursday, June 5, 2014, 2:00 p.m. to 6:00 p.m., and on Friday, June 6, 2014, 9:00 a.m. to 12:15 p.m. The meeting may adjourn early if all business is finished.

**ADDRESSES:** The meeting will be held at the Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street NW., Washington, DC 20581 (Main Conference Room).

**FOR FURTHER INFORMATION CONTACT:** Shawne McGibbon, General Counsel (Designated Federal Officer), Administrative Conference of the United States, Suite 706 South, 1120 20th Street NW., Washington, DC 20036; Telephone 202-480-2088; email [smcgibbon@acus.gov](mailto:smcgibbon@acus.gov).

**SUPPLEMENTARY INFORMATION:** The Administrative Conference of the United States makes recommendations to federal agencies, the President, Congress, and the Judicial Conference of the United States regarding the improvement of administrative procedures (5 U.S.C. 594). The membership of the Conference, when meeting in plenary session, constitutes the Assembly of the Conference (5 U.S.C. 595).

*Agenda:* The Assembly will discuss and consider four recommendations as described below:

- *Resolving FOIA Disputes Through Targeted ADR Strategies.* The OPEN Government Act of 2007 created the Office of Government Information Services (OGIS), a part of the National Archives and Records Administration, to assist in the resolution of disputes arising under the Freedom of Information Act (FOIA). This proposed recommendation suggests ways that OGIS can maximize the effectiveness of its resources to help requesters and agencies resolve FOIA disputes through the use of mediation and other alternatives to litigation. The recommendation also suggests steps that agencies can take to prevent or resolve FOIA disputes, including making FOIA staff and requesters aware of OGIS services and engaging with OGIS and requesters to aid in the resolution of requests.

- *Government in the Sunshine Act.* This proposed recommendation highlights a set of best practices designed to enhance transparency of decisionmaking at multi-member boards and commissions subject to the Government in the Sunshine Act. Among other things, it urges covered agencies to provide a description of the primary mechanisms for conducting business, describe substantive business disposed of outside of open meetings subject to the Act (with appropriate protections for information made exempt from disclosure), and exploit new technologies to disseminate relevant information more broadly.

- *Guidance in the Rulemaking Process.* This proposed recommendation identifies a set of best practices for agencies to follow when providing guidance in preambles to final rules. It is aimed at addressing a number of issues regarding agencies' current practices by suggesting ways to improve the drafting and presentation of preambles to final rules. The recommendation also suggests ways agencies can make it easier to identify the guidance provided in these preambles and urges agencies to ensure that small entity compliance guides posted on their Web sites can be easily located.

- *Ex Parte Communications in Informal Rulemaking.* This proposed recommendation identifies procedures

and best practices for managing written and oral communications that may occur between an agency and interested persons, often referred to as "ex parte" communications, regarding the substance of an anticipated or ongoing informal rulemaking proceeding, which are not placed in the docket at the time they occur. The recommendation reaffirms, and builds on, the principles embodied in the Conference's recommendation on the same subject adopted in 1977 (Recommendation 77-3).

Additional information about the proposed recommendations and the order of the agenda, as well as other materials related to the meeting, can be found at the 60th Plenary Session page on the Conference's Web site: (<http://www.acus.gov/meetings-and-events/plenary-meeting/60th-plenary-session>).

*Public Participation:* The Conference welcomes the attendance of the public at the meeting, subject to space limitations, and will make every effort to accommodate persons with disabilities or special needs. Members of the public who wish to attend in person are asked to RSVP online at the 60th Plenary Session Web page listed above, no later than two days before the meeting, in order to facilitate entry. Members of the public who attend the meeting may be permitted to speak only with the consent of the Chairman and the unanimous approval of the members of the Assembly. If you need special accommodations due to disability, please inform the Designated Federal Officer noted above at least 7 days in advance of the meeting. The public may also view the meeting through a live webcast, which will be available at: [http://acus.granicus.com/ViewPublisher.php?view\\_id=2](http://acus.granicus.com/ViewPublisher.php?view_id=2). In addition, the public may follow the meeting on our Twitter feed @acusgov or hashtag #60thPlenary.

*Written Comments:* Persons who wish to comment on any of the proposed recommendations may do so by submitting a written statement either online by clicking "Submit a Comment" on the 60th Plenary Session Web page listed above or by mail addressed to: June 2014 Plenary Session Comments, Administrative Conference of the United States, Suite 706 South, 1120 20th Street NW., Washington, DC 20036. Written submissions must be received

no later than Friday, May 23 to assure consideration by the Assembly.

Dated: May 13, 2014.

**Shawne McGibbon,**  
General Counsel.

## DEPARTMENT OF AGRICULTURE

### Animal and Plant Health Inspection Service

[Docket No. APHIS-2014-0019]

#### Notice of Request for Revision to and Extension of Approval of an Information Collection; Gypsy Moth Identification Worksheet and Checklist

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Revision to and extension of approval of an information collection; comment request.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the gypsy moth program.

**DATES:** We will consider all comments that we receive on or before July 15, 2014.

**ADDRESSES:** You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/>#!/docketDetail;D=APHIS-2014-0019.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2014-0019, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/>#!/docketDetail;D=APHIS-2014-0019 or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

**FOR FURTHER INFORMATION CONTACT:** For information on the gypsy moth program, contact Mr. Paul Chaloux, National Policy Manager, PHP, PPQ, APHIS, 4700 River Road Unit 137, Riverdale, MD

20737; (301) 851-2064. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

#### SUPPLEMENTARY INFORMATION:

*Title:* Gypsy Moth Identification Worksheet and Checklist.

*OMB Control Number:* 0579-0104.

*Type of Request:* Revision to and extension of approval of an information collection.

*Abstract:* Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the U.S. Department of Agriculture (USDA), either independently or in cooperation with the States, is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not widely distributed throughout the United States. The USDA's Animal and Plant Health Inspection Service (APHIS) is the delegated authority to carry out this mission.

As part of the mission, APHIS' Plant Protection and Quarantine (PPQ) program engages in detection surveys to monitor for the presence of, among other things, the European gypsy moth and the Asian gypsy moth. The European gypsy moth is one of the most destructive pests of fruit and ornamental trees as well as hardwood forests. First introduced into the United States in Medford, MA, in 1869, the European gypsy moth has gradually spread to infest the entire northeastern portion of the country. The gypsy moth regulations can be found in 7 CFR 301.45 through 301.45-12.

Heavily infested European gypsy moth areas are inundated with actively crawling larvae that cover trees, fences, vehicles, and houses during their search for food. Entire areas may be stripped of all foliage, often resulting in heavy damage to trees. The damage can have long-lasting effects, depriving wildlife of food and shelter, and severely limiting the recreational value of forested areas.

The Asian gypsy moth is an exotic strain of gypsy moth that is closely related to the European variety already established in the United States. While the Asian gypsy moth has been introduced into the United States on several occasions, it is currently not established in the United States. However, due to behavioral differences, the Asian gypsy moth is considered to pose an even greater threat to trees and forested areas than the European gypsy moth.

Unlike the flightless European gypsy moth female adult, the Asian gypsy

moth female adult is capable of strong directed flight between mating and egg deposition, significantly increasing its ability to spread over a much greater area and become widely established within a short time. In addition, Asian gypsy moth larvae feed on a much wider variety of hosts, allowing them to exploit more areas and cause more damage than the European gypsy moth.

To determine the presence and extent of a European gypsy moth or an Asian gypsy moth infestation, APHIS sets traps in high-risk areas to collect specimens. Once an infestation is identified, control and eradication work (usually involving State cooperation) is initiated to eliminate the moths.

APHIS personnel, with assistance from State agriculture personnel, check traps for the presence of gypsy moths. If a suspicious moth is found in the trap, it is sent to APHIS laboratories at the Otis Methods Development Center in Massachusetts so that it can be correctly identified through DNA analysis. DNA analysis is the only way to accurately identify these insects because the European gypsy moth and the Asian gypsy moth are strains of the same species, and they cannot be visually distinguished from each other.

The PPQ or State employee submitting the moth for analysis must complete a gypsy moth identification worksheet (PPQ Form 305), which accompanies the insect to the laboratory. The worksheet enables Federal and State regulatory officials to identify and track specific specimens through the DNA identification tests that are conducted. In addition, the information provided by the gypsy moth identification worksheets is vital to APHIS' ability to monitor, detect, and eradicate gypsy moth infestations.

The gypsy moth regulations (§ 301.45-4(a)) also require the inspection of outdoor household articles that are to be moved from a gypsy moth quarantined area to a non-quarantined area to ensure that they are free of all life stages of gypsy moth. Individuals may use a self-inspection checklist that can be found in the USDA-APHIS Program Aid Number 2147, "It's the Law; Before Moving, Check For Gypsy Moth." These inspections can also be performed by a qualified certified applicator. The completed checklist must be signed by the person who performed the inspection and must be kept in the vehicle used to move the outdoor household articles in the event that USDA or State officials request it during the movement of the articles. In addition, it is recommended that individuals maintain a copy of the signed checklist for at least 5 years.
