SUPPLEMENTARY INFORMATION:

I. Abstract

The survey obtains the distribution of expenditures incurred by recipients of biomedical research awards from the National Institutes of Health (NIH) and will provide information on how the NIH award amounts are expended across several major categories. This information, along with wage and price data from other published sources, will be used to generate the Biomedical Research and Development Price Index (BRDPI). BEA develops this index for NIH under a reimbursable contract. The BRDPI is an index of prices paid for the labor, supplies, equipment, and other inputs required to perform the biomedical research the NIH supports in its intramural laboratories and through its awards to extramural organizations. The BRDPI is a vital tool for planning the NIH research budget and analyzing future NIH programs. A survey of award recipients is currently the only means for updating the expenditure category weights that are used to prepare the BRDPI.

The proposed survey change revises the instructions to clarify that respondent's should report not only expenditures from direct NIH award amounts, but also from NIH awards received as a sub-recipient from another institution.

This survey will be voluntary. The authority for NIH to collect information for the BRDPI is provided in 45 CFR subpart C, Post-Award Requirements, § 74.21. This sets forth explicit standards for grantees in establishing and maintaining financial management systems and records, and § 74.53 which

provides for the retention of such records as well as NIH access to such records.

BEA will administer the survey and analyze the survey results on behalf of NIH, through an interagency agreement between the two agencies. The authority for the NIH to contract with DOC to make this collection is the Economy Act (31 U.S.C. 1535 and 1536).

The “Special Studies” authority, 15 U.S.C. 1525 (first paragraph), permits DOC to provide, upon the request of any person, firm, or public or private organization (a) Special studies on matters within the authority of the Department of Commerce, including preparing from its records special compilations, lists, bulletins, or reports, and (b) furnishing transcripts or copies of its studies, compilations and other records. NIH's support for this research is consistent with the Agency's duties and authority under 42 U.S.C. 282.

The information provided by the respondents will be held confidential and be used for exclusively statistical purposes. This pledge of confidentiality is made under the Confidential Information Protection provisions of title V, subtitle A, Public Law 107–347. Title V is the Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA). Section 512 (on Limitations on Use and Disclosure of Data and Information) of the Act, provides that “data or information acquired by an agency under a pledge of confidentiality and for exclusively statistical purposes shall be used by officers, employees, or agents of the agency exclusively for statistical purposes. Data or information acquired by an agency under a pledge of confidentiality for exclusively statistical purposes shall not be disclosed by an agency in identifiable form, for any use other than an exclusively statistical purpose, except with the informed consent of the respondent.”

Responses will be kept confidential and will not be disclosed in identifiable form to anyone, other than employees or agents of BEA or agents of NIH, without prior written permission of the person filing the report. By law, each employee as well as each agent is subject to a jail term of up to 5 years, a fine of up to \$250,000, or both for disclosing to the public any identifiable information that is reported about a business or institution.

Section 515 of the Information Quality Guidelines applies to this survey. The collection and use of this information complies with all applicable information quality guidelines, *i.e.*, those of the Office of

Management and Budget, Department of Commerce, and BEA.

II. Method of Collection

A survey with a cover letter that includes a brief description of, and rationale for, the survey will be sent by email to potential respondents by the first week of October in 2014 and by August of 2015 and 2016. A report of the respondent's expenditures of the NIH award amounts, including NIH awards received as a sub-recipient from another institution, following the proposed format for expenditure categories included with the survey form, will be requested to be completed and submitted online no later than December 8, which in most years will be approximately 120 days after mailing. Survey respondents will be selected on the basis of award levels, which determine the weight of the respondent in the biomedical research and development price index. Potential respondents will include (1) The top 100 organizations in total awards, which account for about 73 percent of total awards; (2) 40 additional organizations that are not primarily in the “Research and Development (R&D) contracts” category; and (3) 10 additional organizations that are primarily in the “R&D contracts” category.

III. Data

OMB Control Number: 0608–0069.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Universities or other organizations that are NIH award recipients.

Estimated Number of Respondents: 120.

Estimated Time per Response: 16 hours, but may vary among respondents because of differences in institution structure, size, and complexity.

Estimated Total Annual Burden Hours: 1,920 hours.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the NIH, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use

of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

SUPPLEMENTARY INFORMATION:

The Petition

On April 23, 2014, the Department of Commerce (Department) received an antidumping duty (AD) petition concerning imports of 53-foot domestic dry containers (domestic dry containers) from the People's Republic of China (PRC), officially filed in proper form on behalf of a U.S. producer of domestic dry containers, Stoughton Trailers, LLC (Petitioner).¹ The AD Petition was accompanied by a countervailing duty (CVD) petition concerning imports of domestic dry containers from the PRC. On April 25, 2014, and May 6, 2014, the Department requested additional information and clarification of certain areas of the Petition, and on April 30, 2014, and May 8, 2014, respectively, Petitioner filed responses to these requests.²

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), Petitioner alleges that imports of domestic dry containers from the PRC are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that such imports materially retard the establishment of an industry in the United States, or in the alternative, that the U.S. industry is materially injured or threatened with material injury by reason of such imports. Also, consistent with section 732(b)(1) of the Act, the Petition is accompanied by information reasonably available to Petitioner in support of its allegations.

The Department finds that Petitioner filed the Petition on behalf of the domestic industry because Petitioner is
