Endangered Species

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of a permit modification and termination of a permit.

SUMMARY: Notice is hereby given that Warnell School of Forest Resources, Fisheries Division, University of Georgia, Athens, Georgia 30602 [Douglas Peterson: Responsible Party], has been issued a permit modification (Permit No. 16482-01) to take to take Atlantic sturgeon (*Acipenser oxyrinchus oxyrinchus*) and shortnose sturgeon (*Acipenser brevirostrum*) for purposes of scientific research. Additionally, Permit No. 14394 issued to the same Permit Holder for study of shortnose sturgeon is hereby terminated.

ADDRESSES: The permit modification and related documents are available for review upon written request or by appointment in the following office:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

FOR FURTHER INFORMATION CONTACT:

Malcolm Mohead, (301) 427-8401.

SUPPLEMENTARY INFORMATION:

On November 7, 2013, notice was published in the **Federal Register** (78 FR 66901) that a scientific research permit modification to take shortnose and Atlantic sturgeon had been submitted by the above-named organization. The respective requested permits have been issued and terminated under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 16482 was issued April 6, 2012 (77 FR 21754) to the Permit Holder to capture all Atlantic sturgeon life stages in the Savannah (SC/GA), Ogeechee (GA), Altamaha (GA), Satilla (GA), and Saint Marys (GA/FL) Rivers using gill nets and trammel nets to measure, weigh, photograph, PIT and Floy tag, and tissue sample. Subsets of animals are anesthetized, fin ray sectioned, laparoscoped, and implanted with internal acoustic tags. The collection of early life stages in suspected spawning areas using egg mats is also permitted in each of these rivers. Incidental mortality of serious harm of up to five juvenile and sub-adults and one adult annually is also authorized.

The permit modification (Permit No. 16482-01) consolidates the takes of shortnose sturgeon originally issued in Permit No 14394 in the Altamaha River (GA). Permit 14394 was terminated upon issuance of the modification. This modification transfers blood sampling from subsets of captured Atlantic and shortnose sturgeon to that permit, adds sampling of early life stage shortnose sturgeon, and adds takes of other shortnose sturgeon life stages using the same research activities, from the Savannah, Ogeechee, Satilla River (GA), Saint Marys Rivers (GA/FL) and Saint Johns and Nassau Rivers (FL), as well as Atlantic sturgeon from the Nassau and Saint Johns Rivers (FL). Incidental mortality of two juvenile or adult shortnose sturgeon is authorized annually from all river systems. The modification is valid through the expiration date of the original permit, April 5, 2017.

Issuance of this permit modification, as required by the ESA, was based on a finding that such permit (1) was

applied for in good faith; (2) will not operate to the disadvantage of such endangered or threatened species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: May 15, 2014.

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. § 131 *et seq.* to examine an application for patent and, when appropriate, issue a patent. Many actions taken by the USPTO during its examination of an application for patent

or for reissue of a patent, or during its reexamination of a patent, are subject to review by an appeal to the Board of Patent Appeals and Interferences. For other USPTO actions, review is in the form of administrative review obtained via submission of a petition to the USPTO. USPTO petitions practice also provides an opportunity for a patent applicant or owner to supply additional information that may be required in order for the USPTO to further process an application or patent.

This collection specifically relates to petitions that must be accompanied by the petition fees set forth in 37 CFR 1.17(f), (g), or (h). Except for the petitions to make special under the Accelerated Examination program, which must be submitted electronically through EFS-Web, the USPTO's Web-based electronic filing system, the petitions in this collection either can be submitted electronically through EFS-Web or on paper.

II. Method of Collection

As attachments through EFS-Web when the applicant files the various petitions. These papers can also be filed by mail, facsimile, or hand delivery, except that the petitions to make special under the Accelerated Examination program can only be filed through EFS-Web.

III. Data

OMB Number: 0651-0059.

Form Number(s): PTO/SB/17P, PTO/SB/23, PTO/SB/24a, PTO/SB/28 (EFS-Web only), and PTO/SB/140.

Type of Review: Revision of a currently approved collection.

Affected Public: Business or other for profit; non-profit institutions.

Estimated Number of Respondents: 33,119 responses per year. Of this total, the USPTO expects that 30,569 responses will be submitted through EFS-Web and 2,550 responses submitted on paper.

Estimated Time per Response: The USPTO estimates that it will take approximately 5 minutes (0.08 hours) to 12 hours to complete the items in this collection, depending on the petition. This includes time to gather the necessary information, create the documents, and submit the completed request to the USPTO. The USPTO calculates that, on balance, it takes the same amount of time to gather the necessary information, prepare the petitions and the fee transmittal form, and submit them to the USPTO, whether the applicant submits the petition in paper form or electronically.
