POLICY JUSTIFICATION

Iraq—M1151A1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs)

The Government of Iraq has requested a possible sale of 200 M1151A1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs) with M2 .50 cal. machine gun mounts, commercial radios, communication equipment, repair and spare parts, publications and technical documentation, tools and test equipment, personnel training and training equipment, U.S. Government and contractor logistics and technical support services, and other related elements of logistics support. The estimated cost is \$101 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

The proposed sale of the M1151 HMMWVs would facilitate progress towards increasing Iraq's ability to defend its oil infrastructure against terrorist attacks. Iraq will use the HMMWVs to increase the safety, effectiveness, and self-reliance of the Iraqi Army's Oil Pipeline Security Division. Iraq will have no difficulty absorbing these additional HMMWVs into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be AM General in South Bend, Indiana. There are no known offset agreements

proposed in connections with this potential sale.

Implementation of this proposed sale will not require U.S. Government or contractor representatives to travel to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATION

Republic of Turkey—MK 48 TORPEDOES

The Government of Turkey has requested a possible sale of up to 48 MK 48 Mod 6 Advanced Technology All-Up-Round (AUR) Warshot Torpedoes, containers, fleet exercise sections, exercise fuel tanks, surface recovery cage and tools, exercise hardware, maintenance facility upgrades, support and test equipment, spare and repair parts, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The total estimated cost is \$170 million.

The Republic of Turkey is a partner of the United States in ensuring peace and stability in the region. It is vital to the U.S. national interest to assist our North Atlantic Treaty Organization (NATO) ally in developing and maintaining a strong and ready self-defense capability that will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The proposed sale will improve Turkey's capability for self defense, modernization, regional security, and interoperability with U.S. and other

NATO members. Turkey will use the enhanced capability of the MK 48 Mod 6 Advanced Technology torpedoes on the new CERBE Class submarines (214 Type 1200). Turkey has significant experience in maintaining and supporting advanced torpedoes, particularly MK 46 Mod 5A(S)W and MK 54 Lightweight Torpedoes (LWT), and has capable infrastructure that will require minimal updates. Turkey is capable of integrating, employing, and maintaining the MK 48 Mod 6AT Torpedo.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Company Integrated Defense Systems in Keyport, Washington; and Lockheed Martin Sippican in Marion, Massachusetts. There are no known offset agreements associated in connection with this proposed sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contract representatives to Turkey; however, contractor engineering and technical services may be required on an interim basis for installations.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 13–56

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

Annex—Item No. vii

(vii) *Sensitivity of Technology:*

1. The MK48 torpedo variants are submarine-launched, heavyweight torpedoes designed for both Anti-Submarine Warfare (ASW) and Anti-Surface Warfare (ASUW) roles. The MK48 Mod 6 Cardbox (with software installed), Torpedo Operational software and Warhead Electronics Subsystem Software are classified Secret. The Sonar Array, Transmitter, and Warhead Electronics Subsystem are classified Confidential. A fully assembled torpedo is classified as Confidential for shipping purposes but contains Secret software stored internally. State of the art technology is used in the 6AT as it includes all upgrades from earlier variants of the MK 48 and inclusion of the Mod 4M quieting modifications and the capability to swim out of larger diameter torpedo tubes. Anti-tampering security measures have been incorporated into the MK 48 Mod 6AT torpedo to prevent exploitation of the advanced software and quieting technologies.

2. If a technologically advanced adversary were to obtain data on the torpedo, along with characteristics and performance data, systems and procedures could be developed for countermeasures that might reduce the torpedo's effectiveness. In addition, the information could be used to develop torpedo systems with similar performance capabilities. All such releases are closely monitored and tailored to eliminate or minimize this risk.

**CERTIFICATION PURSUANT TO § 620C(d)
OF THE FOREIGN ASSISTANCE ACT OF 1961, AS AMENDED**

Pursuant to Section 620C(d) of the Foreign Assistance Act of 1961, as amended (the Act), Executive Order 12163 and State Department Delegation of Authority No. 293-2, I hereby certify that the furnishing to Turkey of 48 MK 48 Mod 6 Advanced Technology All-Up-Round (AUR) Warshot Torpedoes is consistent with the principles contained in Section 620C(b) of the Act.

This certification will be made part of the notification to Congress under Section 36(b) of the Arms Export Control Act, as amended, regarding the proposed sale of the above-named articles and services and is based on the justification accompanying such notification, of which such justification constitutes a full explanation.
