Privacy Act of 1974, as Amended; Notice of a New System of Records

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of creation of a new system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, as amended, the Department of the Interior is issuing a public notice of its intent to create the Bureau of Land Management (BLM) “General Land Office Records Automation System—Interior, BLM–42” system of records. The system of records contains information collected from publicly available historical Federal land conveyance documents (land patents, survey plats, field notes and land status records) maintained by the BLM General Land Office, and billing information of individuals requesting certified copies of land conveyance documents. The purpose of this system is to maintain, protect and preserve more than five million documents of historical relevance and to make these valuable resources for natural resource agencies, historians, surveyors, title companies, and genealogists available

via the General Land Office Records Web site.

DATES: Comments must be received by July 7, 2014. This new system will be effective July 7, 2014.

ADDRESSES: Any person interested in commenting on this notice may do so by: submitting comments in writing to Suzanne Wachter, BLM Privacy Act Officer, 20 M Street SE., Mail Stop 590, Washington, DC 20003; hand-delivering comments to Suzanne Wachter, BLM Privacy Act Officer, 20 M Street SE., Mail Stop 590, Washington, DC 20003; or by emailing comments to swachter@blm.gov.

FOR FURTHER INFORMATION CONTACT: Branch Chief, General Land Office Records Automation, BLM, Eastern States, Branch of General Land Office Records, 20 M Street SE., Washington, DC 20003; or by telephone at 703–440–1786.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of the Interior (DOI), BLM is creating the “General Land Office Records Automation System (GLORAS)—Interior, BLM–42” system of records. The purpose of this system is to maintain more than five million documents of historical relevance, to include: Survey plats, field notes, homesteads certificates, cash patents, military warrants, and railroad grants. These records are valuable resources for natural resource agencies, historians, surveyors, title companies, and genealogists. Increased demand for the information in these records and the preservation of the historic documents provided the impetus for the BLM to create an automated records archive and make the records available to the public.

The system will be effective as proposed at the end of the comment period on July 7, 2014, unless comments are received which would require a contrary determination. The DOI will publish a revised notice if changes are made based upon a review of the comments received.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals’ personal information. The Privacy Act applies to records about individuals that are maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some

identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined as a U.S. citizen or lawful permanent resident. As a matter of policy, DOI extends administrative Privacy Act protections to all individuals. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of the DOI by complying with DOI Privacy Act regulations, 43 CFR part 2.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains and the routine uses that apply to each system in order to make agency record keeping practices transparent; to notify individuals regarding the uses of their records; and, to assist individuals to more easily find such records within the agency. Below is the description of the BLM "General Land Office Records Automation System (GLORAS)—Interior, BLM-42" system of records.

In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: May 20, 2014.

Suzanne Wachter,

Privacy Act Officer, Bureau of Land Management.
