

While OCC believes this review process is adequate, it has concluded that the manual process is less robust than the daily automated Monte Carlo simulation-based methodology applied to deposits of common stocks.<sup>7</sup> OCC states that it has researched the work necessary to integrate preferred stock and corporate bonds into STANS and otherwise automate monitoring and controls as they relate to risk managing these asset types. However, given the de minimis use of these securities as margin collateral, OCC determined that it would be inefficient and ineffective from a cost perspective to expend the significant time, resources and expenses needed to complete the required systems development to automate monitoring and assessment processes for these asset types. Therefore, OCC will discontinue accepting preferred stock and corporate bonds as forms of margin assets and remove provisions from the Rule 604(b)(4) pertaining to the deposit of these asset types.

#### B. Additional Changes

OCC is making additional amendments to Rule 604(b)(4) to eliminate certain provisions that will no longer be applicable upon the elimination of preferred stock as an acceptable form of margin asset.<sup>8</sup> OCC is making conforming changes to remove provisions of Rule 604(b)(4) that: (i) Limit the amount of margin credit of any single issue to 10% of the market value of margin deposited by a clearing member because additional charges for concentrated positions are determined under STANS pursuant to Rule 601, and (ii) limit margin credit given to deposits to 70% of daily closing bid prices because haircuts applied to common stock deposits are determined under STANS pursuant to Rule 601.<sup>9</sup> OCC is also adding a provision explicitly stating that common stock margin deposits are valued in accordance with Rule 601.

OCC is also making additional amendments to Rule 604(b)(4) to eliminate a provision that automatically renders a common stock as ineligible for deposit if it is subject to special margin requirements under the rules of the listing market. OCC believes that it is

<sup>7</sup> OCC uses STANS to value and risk-manage common stocks deposited as margin collateral. STANS calculates haircuts that are regularly tested, taking into account stressed market conditions.

<sup>8</sup> Amended Rule 604(b)(4) will still set forth common stocks as a form of assets eligible for deposit as margin.

<sup>9</sup> OCC has integrated common stocks into the process by which OCC calculates margin requirements using STANS. See Securities Exchange Act Release No. 58158 (July 15, 2008), 73 FR 42646 (July 22, 2008), (SR-OCC-2007-20).

not an efficient use of resources to monitor listing markets to determine if a common stock becomes subject to special margin rules. OCC also believes it is currently able to effectively risk manage common stocks that may become subject to special margin rules through existing STANS functionality.

### III. Discussion

Section 19(b)(2)(C) of the Act<sup>10</sup> directs the Commission to approve a proposed rule change of a self-regulatory organization if it finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to such organization. Section 17A(b)(3)(F) of the Act<sup>11</sup> requires that the rules of a clearing agency that is registered with the Commission be designed to, among other things, promote the prompt and accurate clearance and settlement of securities transactions.

The Commission finds that the proposed rule change is consistent with Section 17A(b)(3)(F) of the Act<sup>12</sup> because eliminating preferred stock and corporate bonds as acceptable margin assets should facilitate the prompt and accurate clearance and settlement of securities transactions by ensuring that the process for valuing all margin assets will be automated using STANS, which should provide for a more expeditious and accurate valuation process than a manual haircut-based approach. Furthermore, eliminating preferred stock and corporate bonds as acceptable margin assets should further facilitate the prompt and accurate clearance and settlement of securities transactions because completely automating the margin valuation process should also give OCC the ability to make a more accurate determination of the sufficiency of all margin assets on deposit at any given point in time.

### IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposal is consistent with the requirements of the Act and in particular with the requirements of Section 17A of the Act<sup>13</sup> and the rules and regulations thereunder.

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Act,<sup>14</sup> that the proposed rule change (File No. SR-

OCC-2014-07) be and hereby is *approved*.<sup>15</sup>

[IM-2440-1.] .01 Mark-Up Policy

The question of fair mark-ups or spreads is one which has been raised from the earliest days of the *National Association of Securities Dealers* (“*Association*”). No definitive answer can be given and no interpretation can be all-inclusive for the obvious reason that what might be considered fair in one transaction could be unfair in another transaction because of different circumstances. In 1943, the Association’s Board adopted what has become known as the “5% Policy” to be applied to transactions executed for customers. It was based upon studies demonstrating that the large majority of customer transactions were effected at a mark-up of 5% or less. The Policy has been reviewed by the Board of Governors on numerous occasions and each time the Board has reaffirmed the philosophy expressed in 1943. Pursuant thereto, and in accordance with Article VII, Section 1(a)(ii) of the By-Laws, the Board [has] adopted the following interpretation [under Rule 2440.]

It shall be deemed a violation of Rule [2110] 2010 and Rule [2440] 2121 for a member to enter into any transaction with a customer in any security at any price not reasonably related to the current market price of the security or to charge a commission which is not reasonable.

(a) through (d) No Change.

\* \* \* \* \*

[IM-2440-2.] .02 Additional Mark-Up Policy For Transactions in Debt Securities, Except Municipal Securities<sup>1</sup>

(a) Scope

[(1) IM-2440-1] *Supplementary Material .01 to Rule 2121* applies to debt securities transactions, and this [IM-2440-2] *Supplementary Material .02* supplements the guidance provided in [IM-2440-1] *Supplementary Material .01*.

(b) Prevailing Market Price

(1) A dealer that is acting in a principal capacity in a transaction with a customer and is charging a mark-up or mark-down must mark-up or mark-down the transaction from the prevailing market price. Presumptively for purposes of this [IM-2440-2] *Supplementary Material .02*, the prevailing market price for a debt security is established by referring to the dealer’s contemporaneous cost as incurred, or contemporaneous proceeds as obtained, consistent with [NASD] *FINRA* pricing rules. (See, e.g., Rule [2320] 5310.)

(2) through (6) No Change.

(7) Finally, if information concerning the prevailing market price of the subject security cannot be obtained by applying any of the above factors, [NASD] *FINRA* or its members may consider as a factor in assessing the prevailing market price of a debt security the prices or yields derived from economic models (e.g., discounted cash flow models) that take into account measures such as credit quality, interest rates, industry sector, time to maturity, call provisions and any other embedded options, coupon rate, and face value; and consider all applicable pricing terms and conventions (e.g., coupon frequency and accrual methods). Such models currently may be in use by bond dealers or may be specifically developed by regulators for surveillance purposes.

(8) No Change.

(9) “Customer,” for purposes of Rule [2440] 2121, [IM-2440-1] *Supplementary Material .01 to Rule 2121* and this [IM-2440-2] *Supplementary Material .02*, shall not include a qualified institutional buyer (“QIB”) as defined in Rule 144A under the Securities Act of 1933 that is purchasing or selling a non-investment grade debt security when the dealer has determined, after considering the factors set forth in [IM-2310-3] *Rule 2111(b)*, that the QIB has the capacity to evaluate independently the investment risk and in fact is exercising independent judgment in deciding to enter into the transaction. For purposes of Rule [2440] 2121, [IM-2440-1] *Supplementary Material .01 to Rule 2121* and this [IM-2440-2] *Supplementary Material .02*, “non-investment grade debt security” means a debt security that: (i) If rated by only one nationally recognized statistical rating organization (“NRSRO”), is rated lower than one of the four highest generic rating categories; (ii) if rated by more than one NRSRO, is rated lower than one of the four highest generic rating categories by any of the NRSROs; or (iii) if unrated, either was analyzed as a non-investment grade debt security by the dealer and the dealer retains credit evaluation documentation and demonstrates to [NASD] *FINRA* (using credit

evaluation or other demonstrable criteria) that the credit quality of the security is, in fact, equivalent to a non-investment grade debt security, or was initially offered and sold and continues to be offered and sold pursuant to an exemption from registration under the Securities Act of 1933.

(c) “Similar” Securities

(1) No Change.  
 (2) The degree to which a security is “similar,” as that term is used in this [IM-2440-2] *Supplementary Material .02*, to the subject security may be determined by factors that include but are not limited to the following:

## II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FINRA included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. FINRA has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

### A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

#### 1. Purpose

As part of the process of developing a new consolidated rulebook (“Consolidated FINRA Rulebook”),<sup>5</sup> FINRA is proposing to transfer NASD Rule 2440 (Fair Prices and Commissions) into the Consolidated FINRA Rulebook as FINRA Rule 2121. NASD Rule 2440 provides that for securities transactions in both listed and unlisted securities a member that buys for his own account from his customer, or sells for his own account to his customer, shall buy or sell at a price that is fair taking into consideration all relevant circumstances, including market conditions with respect to such security at the time of the transaction, the expense involved, and the fact that it is entitled to a profit.<sup>6</sup> Further, if the member acts as agent for its customer in any such transaction, that member shall not charge its customer more than a fair commission or service charge, taking into consideration all relevant circumstances, including market conditions with respect to such security at the time of the transaction, the expense of executing the order, and the value of any service he may have rendered by reason of his experience in and knowledge of such security and the market therefor.<sup>7</sup> FINRA proposes to transfer this rule into the Consolidated FINRA Rulebook without any substantive changes.<sup>8</sup>

With NASD Rule 2440, FINRA also is proposing to transfer IM-2440-1 (Mark-Up Policy) and IM-2440-2 (Additional

<sup>5</sup> The current FINRA rulebook consists of: (1) FINRA Rules; (2) NASD Rules; and (3) rules incorporated from NYSE (“Incorporated NYSE Rules”) (together, the NASD Rules and Incorporated NYSE Rules are referred to as the “Transitional Rulebook”). While the NASD Rules generally apply to all FINRA members, the Incorporated NYSE Rules apply only to those members of FINRA that are also members of the NYSE (“Dual Members”). The FINRA Rules apply to all FINRA members, unless such rules have a more limited application by their terms. For more information about the rulebook consolidation process, see *Information Notice*, March 12, 2008 (Rulebook Consolidation Process).

<sup>6</sup> NASD Rule 2440.

<sup>7</sup> NASD Rule 2440.

<sup>8</sup> FINRA previously has solicited comment on a proposal to move NASD Rule 2440 to the FINRA rules with substantive changes. See *Regulatory Notice 11-08* (February 2011); see also *Regulatory Notice 13-07* (January 2013). Given that these proposals raised complex issues and FINRA would like to proceed with the rulebook consolidation process expeditiously, FINRA is proposing in this rule change to move Rule 2440 and its Interpretive Materials to the FINRA rules without substantive changes, and will defer proposing any substantive changes to the rule to a future rule proposal.

Mark-Up Policy For Transactions in Debt Securities, Except Municipal Securities) as Supplementary Material .01 and .02, respectively. IM-2440-1 provides additional guidance as to what may constitute a fair price or spread; IM-2440-2 provides additional guidance for mark-ups related to transactions in debt securities, except municipal securities. As with NASD Rule 2440, FINRA proposes to transfer these Interpretive Materials without any substantive changes.<sup>9</sup>

FINRA also is proposing to update references and cross-references within Supplementary Material .01. Specifically, FINRA is clarifying that the reference to “Association” in this Supplementary Material is to the National Association of Securities Dealers. FINRA is updating the reference in this Supplementary Material to NASD Rule 2110, which is now FINRA Rule 2010. FINRA is also updating Supplementary Material .02 to change references to NASD to FINRA, to update the reference to NASD Rule 2320 to FINRA Rule 5310, and to update the reference to NASD IM-2310-3 to FINRA Rule 2111(b).

FINRA also proposes to update other FINRA rules as necessary to reflect the transfer of NASD Rule 2440 and its Interpretive Material to FINRA Rule 2121 and its Supplementary Material.

FINRA has filed the proposed rule change for immediate effectiveness.

#### 2. Statutory Basis

FINRA believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act,<sup>10</sup> which requires, among other things, that FINRA rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. FINRA believes that this proposed rule change, which does not substantively change the rule, is consistent with the Act because it is being undertaken pursuant to the rulebook consolidation process, which is designed to provide additional clarity and regulatory efficiency to FINRA members by consolidating the applicable NASD, Incorporated NYSE, and FINRA rules into one rule set.

<sup>9</sup> In addition to transferring IM-2440-1 to Supplementary Material .01, FINRA is changing the introductory language in IM-2440-1, which describes the adoption of the interpretation set forth in that provision, to reflect the historical nature of that adoption.

<sup>10</sup> 15 U.S.C. 78o-3(b)(6).

### *B. Self-Regulatory Organization's Statement on Burden on Competition*

FINRA does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. As noted above, this proposal will not substantively change either the text or the application of the rule and its supporting material.

### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

Written comments were neither solicited nor received with respect to this proposal to transfer NASD Rule 2440 and its supporting Interpretive Material into the Consolidated FINRA Rulebook without any substantive changes.<sup>11</sup>

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>12</sup> and Rule 19b-4(f)(6) thereunder.<sup>13</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

### **IV. Solicitation of Comments**

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

<sup>12</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>13</sup> 17 CFR 240.19b-4(f)(6).
