

vessel operators, the applications must be sponsored and submitted to the Department of Transportation by a public entity, such as a State Department of Transportation, Metropolitan Planning Organization (MPO), or Port Authority. Public/private partnerships are encouraged.

To be eligible for Marine Highway Project status, the proposed project must (1) use U.S. documented vessels, (2) transport passengers, containerized freight, or trailer-based freight, and (3) operate on a designated Marine Highway Route. (Please see 46 CFR 393.4(c) for a comprehensive description of project eligibility). However, because the number of navigable waterways eligible for designation as a Marine Highway Route was increased in the Coast Guard and Marine Transportation Act of 2012, the Department will consider Marine Highway projects that would operate on newly eligible navigable waterways that have been recommended for, but not yet granted, a Marine Highway Route designation. For further information on recommending that a navigable waterway be designated as a Marine Highway Route, please contact your regional Gateway Office.
