

Islands. To our knowledge, the States that do have mandatory reporting rarely exercise their authority. The collection form's confidentiality statement cites the Confidential Information Protection and Statistical Efficiency Act of 2002 and mentions the State mandatory reporting authority.

II. Current Action

Office of Management and Budget clearance is being sought for the Report on Current Employment Statistics.

Automated data collection methods are now used for most of the CES sample. Approximately 111,700 reports are received through Electronic Data Interchange as of January 2014. Web data collection accounts for 47,700 reports. Computer Assisted Telephone Interviewing is used to collect 81,400. Fax is also a significant collection mode,

as 11,600 reports are collected via this method. Touchtone Data Entry is used for 8,600 reports.

The balance of the sample is collected through other methods including submission of transcripts, emails, and other special arrangements.

SUPPLEMENTARY INFORMATION:

I. Background

The Satellite Television Extension and Localism Act of 2010 ("STELA") directed the Register of Copyrights to establish a new procedure to allow copyright owners to audit the Statements of Account ("SOAs") and royalty fees that cable operators and satellite carriers file with the U.S. Copyright Office (the "Office"). See 17 U.S.C. 111(d)(6), 119(b)(2). Cable operators and satellite carriers file SOAs and deposit royalties every six months in order to obtain the benefits of the statutory licenses that allow for the retransmission of over-the-air broadcast signals.

On January 31, 2012, a group of copyright owners filed a Petition for Rulemaking and provided the Office with proposed language for the new audit procedure.¹ See Petition at 1-4. On June 14, 2012, the Office published a notice of proposed rulemaking that set forth its initial proposal for this new procedure (the "First NPRM"), which was based, in part, on audit regulations that the Office has adopted in the past, as well as the petition that the Office received from the copyright owners. See 77 FR 35643 (June 14, 2012).

The Office received extensive comments from groups representing copyright owners, cable operators, and individual companies that use the statutory licenses. The Office carefully studied these comments and revised its proposal based on the suggestions it received. On May 9, 2013 the Office issued a second notice of proposed rulemaking setting forth a revised proposal for the audit procedure (the "Second NPRM"), which was largely based on a joint recommendation that

¹ This group included the Program Suppliers (commercial entertainment programming), Joint Sports Claimants (professional and college sports programming), National Association of Broadcasters ("NAB") (commercial television programming), Commercial Television Claimants (local commercial television programming), Broadcaster Claimants Group (U.S. commercial television stations), American Society of Composers, Authors and Publishers ("ASCAP") (musical works included in television programming), Broadcast Music, Inc. ("BMI") (same), Public Television Claimants (noncommercial television programming), Public Broadcasting Service ("PBS") (same), National Public Radio ("NPR") (noncommercial radio programming), Canadian Claimants (Canadian television programming), and Devotional Claimants (religious television programming).

the Office received from certain stakeholders.² See 78 FR 27137 (May 9, 2013). Once again, the Office received extensive comments.

On December 26, 2013, the Office issued an interim rule that establishes one aspect of the audit procedure (the "Interim Rule"). See 78 FR 78257 (Dec. 26, 2013). Specifically, the Interim Rule allows copyright owners to initiate an audit by filing a notice with the Office and by delivering a copy of that notice to the statutory licensee that will be subject to the procedure. See *id.* at 78257. The Office also explained that it was in the process of reviewing the comments submitted in response to the Second NPRM. See *id.* at 78258.

After analyzing the latest round of comments, the Office has decided to revisit several issues that were identified and discussed in the First and Second NPRMs. In addition, the Office has identified some new issues that were not addressed in any of the comments. These issues are described in Sections II.A through II.E below. Many of them are overlapping in the sense that there may be a common solution for multiple issues.

The public roundtable is intended to elicit specific information on these designated topics, preferably from individuals with experience and expertise in accounting. At this time, the Office is seeking input only on the topics specifically mentioned in this notice. Following the roundtable, the Office expects to issue another notice of proposed rulemaking (the "Third NPRM"), which will set forth a revised proposal for the audit procedure. The Third NPRM will address various issues that the parties raised in response to the Second NPRM, as well as relevant input that the Office receives during the roundtable. The Third NPRM will be published in the **Federal Register** and copyright owners, cable operators, satellite carriers, accounting professionals, and other interested parties will be given an opportunity to submit written comments at that time.

II. Topics for the Public Roundtable

A. Concerns Regarding Backlogs of Pending Audits

As noted above, the proposed rule set forth in the Second NPRM borrows heavily from the joint recommendation that the Office received from certain

² The joint recommendation was submitted by DIRECTV, the National Cable Television Association, and a group representing certain copyright owners, namely, the Program Suppliers, Joint Sports Claimants, ASCAP, BMI, SESAC, the Public Television Claimants, the Canadian Claimants Group, the Devotional Claimants, and NPR.
