

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before August 4, 2014.

**ADDRESSES:** Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at [Jjessup@doc.gov](mailto:Jjessup@doc.gov)).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Ana Valentin, Phone: (301) 427-8187 or [ana.valentin@NOAA.gov](mailto:ana.valentin@NOAA.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

This request is for a new information collection.

Marine recreational anglers are surveyed to collect catch and effort data, fish biology data, and angler socioeconomic characteristics. These data are required to carry out provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), as amended, regarding conservation and management of fishery resources.

The For-Hire Survey (FHS) will collect recreational fishing catch and effort data through a telephone, Web-based data collection, and log sheet methods. Amendments to the Magnuson-Stevens Fishery Conservation and Management Act require the development of an improved data collection program for recreational fisheries. To meet these requirements, NOAA Fisheries has designed a telephone questionnaire in the Computer Assisted Telephone Interview (CATI) system for surveying and collecting catch and effort data from recreational anglers. The FHS will sample a week's activity from 10% of vessels that are permitted for-hire or charter vessel trips. Each interview will collect the number of recreational fishing trips, and log sheets submitted by the permit holders will show corresponding effort data (e.g. time at sea, amounts of catch from each fishery), within the sample selected week.

**II. Method of Collection**

Information will be collected through telephone interviews using a CATI System. In lieu of telephone interviews, respondents may also provide information via a Web-based application.

**III. Data**

*OMB Control Number:* 0648-XXXX.

*Form Number:* None.

*Type of Review:* Regular submission (request for a new information collection).

*Affected Public:* Individuals or households.

*Estimated Number of Respondents:* 20,000.

*Estimated Time per Response:* 3½ minutes for a telephone interview; 3½ minutes to complete their responses on the web-based application; 1 minute for fax the log-sheet.

*Estimated Total Annual Burden Hours:* 1,334.

*Estimated Total Annual Cost to Public:* \$0 in recordkeeping/reporting costs.

**IV. Request for Comments**

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: May 29, 2014.

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**National Estuarine Research Reserve System**

**AGENCY:** Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

**ACTION:** Notice of Public Comment Period for the Waquoit Bay, Massachusetts National Estuarine Research Reserve Management Plan revision.

**SUMMARY:** Notice is hereby given that the Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce is announcing a thirty day public comment period for the Waquoit Bay, Massachusetts National Estuarine Research Reserve Management Plan revision.

The Waquoit Bay Reserve revised plan will replace the plan approved in 2006. The revised management plan outlines the administrative structure; the research & monitoring, education, training, and stewardship goals of the reserve; and the plans for future land acquisition and facility development to support reserve operations. The revised management plan will serve as the guiding document for the 2,804 acre Waquoit Bay Reserve for the next five years.

**FOR FURTHER INFORMATION CONTACT:** Michael Migliori at (301) 563-1126 or Erica Seiden at (301) 563-1172 of NOAA's National Ocean Service, Estuarine Reserves Division, 1305 East-West Highway, N/ORM5, 10th floor, Silver Spring, MD 20910.

**SUPPLEMENTARY INFORMATION:** Pursuant to 15 CFR 921.33(c), the revised plan meets the reserve's requirements for compliance. The Waquoit Bay Reserve revised plan will replace the plan approved in 2006.

The revised management plan outlines the administrative structure; the research & monitoring, education, training, and stewardship goals of the reserve; and the plans for future land acquisition and facility development to support reserve operations.

The Waquoit Bay, Massachusetts Reserve takes an integrated approach to management, linking research, education, training and stewardship functions to address high priority issues

including the impact of climate change on estuarine ecosystems; connections between watershed land-use and water quality; assessment of ecosystem response to natural variability and human impacts; and understanding and enhancing ecosystem services of coastal habitats. Since the last management plan, the reserve implemented its core programs, expanded its monitoring infrastructure to establish a groundwater monitoring program and a Salt Marsh Observatory; enhanced its facilities with energy efficiency installations, campus building improvements, and updated educational exhibits; and furthered land conservation in the reserve's watersheds.

This management plan calls for a boundary expansion of 23 acres. The lands consist of the 11.4 acre Caleb Pond parcel on the northeast corner of Waquoit Bay as well as the addition of 12.4 acres to the Quashnet River lands. The Caleb Pond parcel is the largest single undeveloped parcel on Waquoit Bay and contains an upland coastal pine-oak forest habitat with fringing salt marsh and a connecting stream that contains diadromous fish runs of American eel and has historically supported an anadromous river herring run. The parcel is especially suitable for educational purposes and creates 40 acres of contiguous protected lands across the head of Waquoit Bay. The Quashnet River land parcel expands important contiguous and unfragmented habitat that is valuable as wildlife habitat and corridor as well as increases protection of terrestrial, groundwater, and aquatic systems. This parcel is appropriate for education, recreation, and upland research purposes.

The revised management plan will serve as the guiding document for the 2,804 acre Waquoit Bay Reserve for the next five years. The Waquoit Bay Reserve Management Plan revision can be viewed at (<http://www.waquoitbayreserve.org/about/management-plan/>). Comments can be provided to the Reserve Manager at [james.rassman@state.ma.us](mailto:james.rassman@state.ma.us).

Dated: May 29, 2014.

**Takes of Marine Mammals Incidental to Specified Activities; Seabird Monitoring and Research in Glacier Bay National Park, Alaska, 2014**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; proposed incidental harassment authorization; request for comments.

**SUMMARY:** NMFS has received an application from Glacier Bay National Park (Glacier Bay NP) to take marine mammals, by harassment incidental to conducting seabird research from July through September, 2014. The proposed dates for this action would be July 22, 2014 through September 30, 2014. Per the Marine Mammal Protection Act, we are requesting comments on our proposal to issue an Authorization to the Glacier Bay NP to incidentally take, by Level B harassment only, one species of marine mammals during the specified activity.

**DATES:** NMFS must receive comments and information on or before July 7, 2014.

**ADDRESSES:** Address comments on the application to Jolie Harrison, Supervisor, Incidental Take Program, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910. The mailbox address for providing email comments is [ITP.Cody@noaa.gov](mailto:ITP.Cody@noaa.gov). Please include 0648-XD174 in the subject line. Comments sent via email to [ITP.Cody@noaa.gov](mailto:ITP.Cody@noaa.gov), including all attachments, must not exceed a 25-megabyte file size. NMFS is not responsible for email comments sent to addresses other than the one provided here.

**Instructions:** All submitted comments are a part of the public record and NMFS will post them to <http://www.nmfs.noaa.gov/pr/permits/incidental.htm#applications> without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

To obtain an electronic copy of the application containing a list of the

references used in this document, write to the previously mentioned address, telephone the contact listed here (see **FOR FURTHER INFORMATION CONTACT**), or visit the internet at: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm#applications>.

We will prepare an environmental assessment (EA) in accordance with the National Environmental Policy Act to evaluate the environmental effects related to the scope of our federal action, which is the proposed issuance of an Authorization to Glacier Bay NP for their proposed seabird research activities. This notice presents detailed information on the scope of our federal action under NEPA (i.e., the proposed Authorization including mitigation measures and monitoring) and we will consider comments submitted in response to this notice as we prepare our EA. Information in Glacier Bay NP's application and this notice collectively provide the environmental information related to proposed issuance of the Authorization for public review and comment.

**FOR FURTHER INFORMATION CONTACT:** Jeannine Cody, NMFS, Office of Protected Resources, NMFS (301) 427-8401.

**SUPPLEMENTARY INFORMATION:**

**Background**

Section 101(a)(5)(D) of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) directs the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals of a species or population stock, by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if, after NMFS provides a notice of a proposed authorization to the public for review and comment: (1) NMFS makes certain findings; and (2) the taking is limited to harassment.

An Authorization shall be granted for the incidental taking of small numbers of marine mammals if NMFS finds that the taking will have a negligible impact on the species or stock(s), and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant). The Authorization must also set forth the permissible methods of taking; other means of effecting the least practicable adverse impact on the species or stock and its habitat; and requirements pertaining to the mitigation, monitoring and reporting of such taking. NMFS has defined "negligible impact" in 50 CFR 216.103 as "an impact resulting from
