The intent of this information is to encourage the public and industry to take precautions to limit the spread of aquatic invasive species.

SUPPLEMENTARY INFORMATION:

Background

Through provisions in title 50, part 16, of the Code of Federal Regulations (CFR), the U.S. Fish and Wildlife Service (Service) regulates the importation and interstate transport of certain aquatic invasive species that have been determined to be injurious. The Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4701 et seq.) established the Aquatic Nuisance Species Task Force (ANSTF), an intergovernmental organization co-chaired by the Service and the National Oceanic and Atmospheric Administration and dedicated to the development and implementation of a program for U.S. waters to prevent introduction and disposal of aquatic invasive species (AIS); to monitor, control, and study such species; and to disseminate related information. In 2000, the ANSTF developed *Recommended Voluntary Guidelines for Preventing the Spread of Aquatic Nuisance Species Associated with Recreational Activities* and announced the availability of the guidelines via a **Federal Register** notice (65 FR 82447; December 28, 2000).

Development of Draft Guidelines Documents

In 2011, the ANSTF established committees to revise the *Recommended Voluntary Guidelines for Preventing the Spread of Aquatic Nuisance Species Associated with Recreational Activities* and to develop new guidelines that

would prevent the spread of aquatic invasive species by water gardening. The goal of the two committees was to develop clear, easy-to-use standardized national guidelines that are easily communicated to user groups and can be incorporated into education and outreach media. An additional benefit to recreationists and water gardeners who follow these guidelines is to avoid possible violation of Federal, Tribal, and State laws that prohibit the transport of aquatic invasive species. Public comment was requested via a **Federal Register** notice (78 FR 39310; July 1, 2013). Comments were addressed, and the documents were modified accordingly. There were no substantive comments.

Recreational Activities

The revised document, *Voluntary Guidelines to Prevent the Introduction and Spread of Aquatic Invasive Species: Recreational Activities* will provide guidance to agencies, organizations, and the public on preventing the spread of aquatic invasive species through activities such as angling, boating, scuba diving, waterfowl hunting, and operating seaplanes.

Water Gardening

The *Voluntary Guidelines to Prevent the Introduction and Spread of Aquatic Invasive Species: Water Gardening* will provide guidelines to address the potential spread of aquatic invasive species by water gardening to be used by agencies, organizations, and the public for education and outreach.

Availability of Documents

The two sets of guidelines are available on the ANSTF Web site, by U.S. mail from the Service or by email (see **ADDRESSES**) for public outreach use.
