**SUPPLEMENTARY INFORMATION:**

*Title:* Category of Plants for Planting Not Authorized for Importation Pending Pest Risk Analysis.

*OMB Control Number:* 0579-0380.

*Type of Request:* Extension of approval of an information collection.

*Abstract:* Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to take such actions as may be necessary to prevent the introduction and spread of plant pests and noxious weeds within the United States. The Secretary has delegated this authority to the Animal and Plant Health Inspection Service (APHIS).

The regulations contained in "Subpart-Plants for Planting" (7 CFR 319.37 through 319.37-14) prohibit or restrict, among other things, the importation of living plants, plant parts, and seeds for propagation. These regulations are intended to ensure that imported plants for planting do not serve as a host for plant pests, such as insects or pathogens, that can cause damage to U.S. agricultural and environmental resources.

In accordance with § 319.37-2a, the importation of certain taxa of plants for planting poses a risk of introducing quarantine pests into the United States. Therefore, the importation of these taxa is not authorized pending the completion of a pest risk analysis, except as provided in the regulations. Requests to remove a taxon from the category of plants for planting whose importation is not authorized pending the completion of a pest risk analysis must be made in accordance with § 319.5. The submission of requests contains information collection activities, including information about the party making the request, information about the commodity proposed for importation into the United States, shipping information, a description of the pests and diseases associated with the commodity, current practices for risk mitigation or management, and any additional information listed in § 319.5 that may be necessary for APHIS to complete a pest risk analysis.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the

Agency, including whether the information will have practical utility;

- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

*Estimate of burden:* The public reporting burden for this collection of information is estimated to average 5.6 hours per response.

*Respondents:* National plant protection organizations and importers of plants for planting into the United States.

*Estimated annual number of respondents:* 5.

*Estimated annual number of responses per respondent:* 1.

*Estimated annual number of responses:* 5.

*Estimated total annual burden on respondents:* 28 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 29th day of May 2014.

**DEPARTMENT OF COMMERCE****Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).  
*Title:* Vessel Monitoring System (VMS) Requirement for Pacific Islands Fisheries.

*OMB Control Number:* 0648-0441.

*Form Number(s):* NA.

*Type of Request:* Regular submission (extension of a current information collection).

*Number of Respondents:* 208.

*Average Hours per Response:* Installation, 4 hours; replacement, 4 hours; maintenance and repair, 1 hour.  
*Burden Hours:* 170.

*Needs and Uses:* This request is for extension of a currently approved information collection.

As part of fishery management plans developed under the authority of the

Magnuson-Stevens Fishery Conservation and Management Act, owners of commercial fishing vessels in the Hawaii pelagic longline fishery, American Samoa pelagic longline fishery (only vessels longer than 50 feet), Northwestern Hawaiian Islands lobster fishery (currently inactive), and Northern Mariana Islands bottomfish fishery (only vessels longer than 40 feet) must allow the National Oceanic and Atmospheric Administration (NOAA) to install vessel monitoring system (VMS) units on their vessels when directed to do so by NOAA enforcement personnel. VMS units automatically send periodic reports on the position of the vessel. NOAA uses the reports to monitor the vessel's location and activities, primarily to enforce regulated fishing areas. NOAA pays for the units and messaging. There is no public burden for the automatic messaging; however, VMS installation and annual maintenance are considered public burden.

*Affected Public:* Business or other for-profit organizations.

*Frequency:* Annually and on occasion.

*Respondent's Obligation:* Mandatory.

This information collection request may be viewed at [reginfo.gov](http://reginfo.gov). Follow the instructions to view Department of Commerce collections currently under review by OMB.
