

DEPARTMENT OF HOMELAND SECURITY**Federal Emergency Management Agency**

[Docket ID: FEMA-2014-0006; OMB No. 1660-0011]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Debt Collection Financial Statement

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: The Federal Emergency Management Agency (FEMA) will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. The submission will describe the nature of the information collection, the categories of respondents, the estimated burden (i.e., the time, effort and resources used by respondents to respond) and cost, and the actual data collection instruments FEMA will use.

DATES: Comments must be submitted on or before July 7, 2014.

ADDRESSES: Submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the Desk Officer for the Department of Homeland Security, Federal Emergency Management Agency, and sent via electronic mail to oir.submission@omb.eop.gov or faxed to (202) 395-5806.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection should be made to Director, Records Management Division, 500 C Street SW., Washington, DC 20472-3100, facsimile number (202) 646-3347, or email address FEMA-Information-Collections-Management@dhs.gov.

SUPPLEMENTARY INFORMATION:**Collection of Information**

Title: Debt Collection Financial Statement.

Type of information collection: Revision of a currently approved information collection.

OMB Number: 1660-0011.

Form Titles and Numbers: FEMA Form 127-0-1, Debt Collection Financial Statement.

Abstract: FEMA may request debtors to provide personal financial

information on FEMA Form 127-0-1 concerning their current financial position. With this information, FEMA evaluates whether to allow its debtors to pay their FEMA debts under installment repayment agreements and if so, under what terms. FEMA also uses this data to determine whether to compromise, suspend, or terminate collection efforts on respondent's debts. This data is also used to locate the debtor's assets if the debts are sent for judicial enforcement.

Affected Public: Individuals or households.

Estimated Number of Respondents: 2,000.

Estimated Total Annual Burden Hours: 1,500 hours.

Estimated Cost: The estimated annual cost to respondents for the hour burden is \$50,610.00. There are no annual costs to respondents' operations and maintenance costs for technical services. There is no annual start-up or capital costs. On February 18, 2014, FEMA published a Notice for this information collection. 79 FR 9251. In that Notice, FEMA indicated that the cost to the Federal Government was \$189,319.75. The cost of a U.S. postage stamp has increased, however, from \$0.46 to \$0.49, and as a result, FEMA adjusts the total cost to the Federal Government to \$189,380.88 to reflect this change in the price of postage.

Dated: May 14, 2014.

Charlene D. Myrthil,

Director, Records Management Division, Mission Support Bureau, Federal Emergency Management Agency, Department of Homeland Security.

Deepwater Horizon Oil Spill; Final Programmatic and Phase III Early Restoration Plan and Final Early Restoration Programmatic Environmental Impact Statement

AGENCY: Department of the Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the Oil Pollution Act of 1990 (OPA) and the National Environmental Policy Act (NEPA), notice is hereby given that the Federal and State natural resource trustee agencies (Trustees) have prepared a Final Programmatic and Phase III Early Restoration Plan and Final Early Restoration Programmatic Environmental Impact Statement (Final Phase III ERP/PEIS). The Final Phase III ERP/PEIS considers programmatic alternatives comprised of early restoration project types that would restore natural resources, ecological services, and recreational use services injured or lost as a result of the *Deepwater Horizon* oil spill and related response actions. The Trustees additionally propose to select 44

specific early restoration projects for implementation that are consistent with the proposed preferred early restoration program alternative. The Trustees have developed restoration alternatives and projects to utilize funds for early restoration being provided under the Framework for Early Restoration Addressing Injuries Resulting from the *Deepwater Horizon* Oil Spill (Framework Agreement) discussed below. The Final Phase III ERP/PEIS evaluates these programmatic restoration alternatives and projects under criteria set forth in the natural resource damage assessment regulations and the Framework Agreement. The Final Phase III ERP/PEIS also evaluates the environmental consequences of the restoration alternatives and projects under NEPA. The purpose of this notice is to inform the public of the availability of the Final Phase III ERP/PEIS.

ADDRESSES: *Obtaining Documents:* You may download the Final Phase III ERP/PEIS at <http://www.gulfspillrestoration.noaa.gov> or <http://www.doi.gov/deepwaterhorizon>. You may also view the Final Phase III ERP/PEIS at any of the public repositories listed at <http://www.gulfspillrestoration.noaa.gov>.

SUPPLEMENTARY INFORMATION:

Introduction

On or about April 20, 2010, the mobile offshore drilling unit *Deepwater Horizon*, which was being used to drill a well for BP Exploration and Production, Inc. (BP), in the Macondo prospect (Mississippi Canyon 252–MC252), experienced a significant explosion, fire, and subsequent sinking in the Gulf of Mexico, resulting in an unprecedented volume of oil and other discharges from the rig and from the wellhead on the seabed. The *Deepwater Horizon* oil spill is the largest oil spill in U.S. history, discharging millions of barrels of oil over a period of 87 days. In addition, well over a million gallons of dispersants were applied to the waters of the spill area in an attempt to disperse the spilled oil. An undetermined amount of natural gas was also released into the environment as a result of the spill.

The State and Federal natural resource trustees (Trustees) are conducting the natural resource damage assessment for the *Deepwater Horizon* oil spill under the Oil Pollution Act 1990 (OPA; 33 U.S.C. 2701 *et seq.*). Pursuant to OPA, Federal and State agencies act as trustees on behalf of the

public to assess natural resource injuries and losses of natural resource services, and to determine the actions required to compensate the public for those injuries and losses. OPA further instructs the designated trustees to develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent of the injured natural resources under their trusteeship, including the loss of use and services from those resources from the time of injury until the time restoration to baseline (the resource quality and conditions that would exist if the spill had not occurred) is complete. Pursuant to the process articulated in the Framework Agreement the Trustees have previously selected, and BP has agreed to fund, a total of 10 early restoration projects, expected to total approximately \$71 million, through the Phase I Early Restoration Plan/Environmental Assessment (Phase I ERP) and Phase II Early Restoration Plan/Environmental Review (Phase II ERP). These plans are available at <http://www.gulfspillrestoration.noaa.gov/restoration/early-restoration/>.

The Trustees are:

- U.S. Department of the Interior (DOI), as represented by the National Park Service, U.S. Fish and Wildlife Service, and Bureau of Land Management;
- National Oceanic and Atmospheric Administration (NOAA), on behalf of the U.S. Department of Commerce;
- U.S. Department of Agriculture (USDA);
- U.S. Environmental Protection Agency (USEPA);
- State of Louisiana Coastal Protection and Restoration Authority, Oil Spill Coordinator's Office, Department of Environmental Quality, Department of Wildlife and Fisheries, and Department of Natural Resources;
- State of Mississippi Department of Environmental Quality;
- State of Alabama Department of Conservation and Natural Resources and Geological Survey of Alabama;
- State of Florida Department of Environmental Protection and Fish and Wildlife Conservation Commission; and
- Texas Parks and Wildlife Department, Texas General Land Office, and Texas Commission on Environmental Quality;
- The Department of Defense (DOD)

is also a trustee of natural resources associated with DOD-managed land on the Gulf Coast, which is included in the ongoing NRDA; however DOD is not a signatory of the Framework Agreement nor a participant in this Phase III Early Restoration Plan.
