abstracted below to the Office of
Management and Budget for review and
clearance in accordance with the
requirements of the Paperwork
Reduction Act of 1995. The submission
will describe the nature of the
information collection, the categories of

the time, effort and resources used by
respondents to respond) and cost, and
the actual data collection instruments
FEMA will use.

DATES: Comments must be submitted on or before July 7, 2014.

ADDRESSES: Submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the Desk Officer for the Department of Homeland Security, Federal Emergency Management Agency, and sent via electronic mail to *oira.submission@ omb.eop.gov* or faxed to (202) 395–5806.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Collection of Information

Title: Application for Participation in the National Flood Insurance Program (NFIP).

Type of information collection: Revision of a currently approved information collection.

OMB Number: 1660-0004.

Form Titles and Numbers: FEMA Form 086–0–30, Application for Participation in the National Flood Insurance Program.

Abstract: The National Flood
Insurance Program (NFIP) provides
flood insurance to the communities that
apply for participation and make a
commitment to adopt and enforce land
use control measures that are
established to reduce risk to people and
property in flood-prone areas. The
application form and supporting
documentation will enable FEMA to
continue to rapidly process new
community applications and to thereby
more quickly provide flood insurance
protection to the residents in these
communities.

This collection has been updated to account for the burden hours associated with the communities' floodplain development permitting process. To qualify for the NFIP, a participating community must adopt certain minimum standards in accordance with FEMA's regulations at 44 CFR 60.3, 60.4, and 60.5. In order to verify whether communities maintain such standards, the NFIP requires participating communities to retain documentation on development taking place in the flood hazard areas within the community. 44 CFR 59.22. Such information will be made available to FEMA upon request. This information assists FEMA in evaluating the effectiveness of a community's floodplain management program and, through that, the community's continuing eligibility to participate in the program. In the past, the NFIP application did not account for burden hours associated with this collection of information.

The Application for Participation in the NFIP and the Community Development Permit Process are separate actions documented under the same collection.

Affected Public: State, local or Tribal Government.

Estimated Number of Respondents: 20,344.

Estimated Total Annual Burden Hours: 221,121 hours.

Estimated Cost: The estimated annual cost to respondents for the hour burden is \$9,382,164.30. There are no annual costs to respondents operations and maintenance costs for technical services. There is no annual start-up or capital costs. The cost to the Federal Government is \$74,788.

Dated: May 28, 2014.

Director, Records Management Division, Mission Support Bureau, Federal Emergency Management Agency, Department of Homeland Security.

SUPPLEMENTARY INFORMATION:

Regulations implementing Property Acquisition and Relocation for Open Space are codified at 44 CFR part 80. These regulations govern property acquisitions for the creation of open space under all of FEMA's hazard mitigation assistance (HMA) grant programs: The Pre-Disaster Mitigation program (PDM) and Hazard Mitigation Grant Program (HMGP), which are authorized under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended, 42 U.S.C. 5121-5207; and the Flood Mitigation Assistance Program (FMA) authorized under the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4001 et seq. Acquisition and relocation of property for open space use is one of the most common mitigation activities and is an eligible activity type authorized for Federal grant funds under PDM, HMGP, and FMA. FEMA HMA programs require all properties acquired with FEMA funds to be deed restricted and maintained as open space in perpetuity. This ensures that no future risks from hazards occur to life or structures on that property, and no future disaster assistance or insurance payments are made as a result of damages to that property. This extension of a currently approved collection of information is necessary to establish uniform requirements for State and local implementation of acquisition activities, and to enforce open space maintenance and monitoring requirements for properties acquired with FEMA mitigation grant funds.
