k. *Scoping Process:*

Oregon State University (OSU) intends to utilize the Federal Energy Regulatory Commission's (Commission) alternative licensing process (ALP). Under the ALP, OSU will prepare an Applicant Prepared Environmental Assessment (APEA) and license application for the Pacific Marine Energy Test Center South Energy Test Site.

OSU expects to file with the Commission, the APEA and the license application for the Pacific Marine Energy Test Center South Energy Test Site Project by December 2015. Although the Commission's intent is to prepare an EA, there is the possibility that an Environmental Impact Statement (EIS) will be required. Nevertheless, this meeting will satisfy the NEPA scoping requirements, irrespective of whether an EA or EIS is issued by the Commission.

The purpose of this notice is to inform you of the opportunity to participate in the upcoming scoping meetings and environmental site review identified below, and to solicit your scoping comments.
