Pacific Island Fisheries; Western Pacific Stock Assessment Review; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Western Pacific Fishery Management Council (Council) and NMFS will convene a Western Pacific Stock Assessment Review (WPSAR) meeting for Pacific Island coral reef ecosystem fisheries.

DATES: The meeting will be held on June 30 through July 3, 2014, starting at 9 a.m. each day. The meeting will conclude each day at 5 p.m., or when business for the day has been completed. See **SUPPLEMENTARY INFORMATION** for the daily meeting agenda.

ADDRESSES: The meeting will be held at the NMFS Honolulu Service Center at Pier 38, 1129 North Nimitz Hwy., Suite 220, Honolulu, HI 96817.

FOR FURTHER INFORMATION CONTACT:

Kitty M. Simonds, Executive Director, telephone: (808) 522-8220.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to review a Bayesian modeling approach that generates maximum sustainable yield (MSY) estimates for Pacific coral reef ecosystem resources using available catch time series, a measure of

population growth, carrying capacity, and biomass from NMFS underwater fish census surveys. At this meeting, a team of reviewers provided by the Center for Independent Experts (www.ciereviews.org) will review the model methods, input data and parameters, including the adequacy of the model and model outputs, and suggest research priorities to improve understanding of essential population and fishery dynamics necessary to formulate best management practices. The MSY estimates generated by the model will be the foundation upon which the Council and NMFS will base management decisions for Pacific Island coral reef fisheries, including establishment of annual catch limits (ACL) starting in 2015.

The Council and NMFS established the WPSAR process pursuant to Section 302(g)(1)(E), which provides that the Secretary of Commerce and each regional fishery management council may establish a peer review process for scientific information used to advise the Council about fisheries conservation and management. The Council and NMFS emphasize constituent and stakeholder participation in the WPSAR process and ensuring rigorous and independent review of information.

The evaluations will include a public meeting, consideration of written public comments and consultations with interested Federal, state, and local agencies and members of the public. When the evaluation is completed, OCRM will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings. Notice is hereby given of the date, local time, and location of the public meeting.
