1. *Type of Information Collection*

Request: Extension of a currently approved collection; *Title of Information Collection:* Disclosure for the In-Office Ancillary Services Exception; *Use:* Physicians who provide certain imaging services (magnetic resonance imaging, computed tomography, and positron emission tomography) under the in-office ancillary services exception to the physician self-referral prohibition are required to create the disclosure notice as well as the list of other imaging suppliers to be provided to the patient. The patient can use the disclosure notice and list of suppliers in making an informed-decision about his or her course of care for the imaging service. The physician must maintain a record of the disclosure in the patient's medical record. If we were investigating the referrals of a physician providing advanced imaging services under the in-office ancillary services exception, we would review the written disclosure to determine whether the physician satisfied the requirement.

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Title: Evaluation of Tribal Health Profession Opportunity Grants (HPOG).
OMB No.: 0970-0395.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is proposing to continue information collection activities as part of the Evaluation of the Tribal Health Profession Opportunity Grants (HPOG). These information collection activities were approved by OMB in October 2011 for a three-year period (OMB clearance number 0970-0395). ACF is requesting a one-year extension of these activities. Through the extension of the information collection, ACF seeks to continue a comprehensive process and outcome evaluation to provide documentation and lessons learned about diverse programmatic approaches to health professions trainings for Tribal populations.

The goals of the Tribal HPOG evaluation are to: (1) Provide an in-depth, systematic analysis of program structure, implementation, and outcomes of the sites served by the five Tribal HPOG grantees funded in FY 2010, and (2) compare these data within and across grantees to generate hypotheses about the effectiveness of different program approaches for Tribal populations. These goals require

collecting information from Tribal HPOG grantees and other program stakeholders on an annual basis. The information collection activities include in-person and telephone interviews and focus groups. A one-year extension of these activities will allow the evaluation to gather data from the grantees through the end of their grant period. Program operations data related to this effort will continue to be collected through a web-based performance management system under a separate information collection (OMB clearance number 0970-0394).

This **Federal Register** Notice provides the opportunity to comment on a proposed information collection activity for the evaluation of Tribal HPOG. All instruments included in this request have been previously approved. The burden represents continuing data collection into this period.

Respondents: Grantee and Partner Administrative Staff interview: Administrators of the Tribal HPOG program, workforce development, and TANF agencies; public and private university-based partners; and not-for profit organizations.

Program Implementation Staff interview: Instructors, trainers, and providers of program or supportive services.

Program Participant focus groups: Current program participants.

Employers interview: Local or regional employers at public or private companies or organizations that are partnering with the Tribal HPOG program or have employed program participants.

Program Completers interview: Program completers.

Program Non-completers interview: Individuals who did not complete the programs.

Annual Burden Estimates

The current information collection request is for a one-year period.

information collection described above.
