

help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the regulations for the importation of poultry meat and other poultry products from Sinaloa and Sonora, Mexico, contact Dr. Magde Elshafie, Senior Staff Veterinary Medical Officer, National Import Export Services, 4700 River Road Unit 40, Riverdale, MD 20737-1231; (301) 851-3300. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Importation of Poultry Meat and Other Poultry Products From Sinaloa and Sonora, Mexico.

OMB Control Number: 0579-0144.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture is authorized, among other things, to prohibit the importation and interstate movement of animals and animal products to prevent the introduction into and dissemination within the United States of animal diseases and pests. To fulfill this mission, APHIS regulates the importation of animals and animal products into the United States. The regulations are contained in title 9, chapter I, subchapter D, parts 91 through 99, of the Code of Federal Regulations.

The regulations in part 94, among other things, restrict the importation of poultry meat and other poultry products from Mexico and other regions of the world where Newcastle disease has been determined to exist. The regulations allow the importation of poultry meat and poultry products from the Mexican States of Sinaloa and Sonora under conditions that protect against the introduction of Newcastle disease into the United States.

To ensure that these items are safe for importation, we require that certain data appear on the foreign meat inspection certificate that accompanies the poultry meat or other poultry products from Sinaloa and Sonora. We also require that serially numbered seals be applied to containers carrying the poultry meat or other poultry products.

Since the last approval of these collection activities, shipments of poultry meat and other poultry products from Sinaloa and Sonora to the United States have increased. As a result of the increase in shipments, the estimated

annual number of respondents has increased from 280 to 386, and the estimated annual total burden has accordingly increased from 280 hours to 386 hours.

We are asking OMB to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Federal animal health authorities in Mexico and exporters of poultry meat and other poultry products from Mexico to the United States.

Estimated annual number of respondents: 386.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 386.

Estimated total annual burden on respondents: 386 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 11th day of June 2014.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
