ENVIRONMENTAL PROTECTION AGENCY

[FRL-9912-28-Region-6]

Clean Water Act Section 303(d): Withdrawal of One Total Maximum Daily Load

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of Withdrawal of One Total Maximum Daily Load.

SUMMARY: The U.S. Environmental Protection Agency (EPA) hereby issues notice of the withdrawal of one Total Maximum Daily Load (TMDL) for lead, as found in the document titled “TMDLs for Lead and Siltation/Turbidity for Big Creek near Sheridan, Arkansas.” The TMDL was established by the EPA in March of 2008. This withdrawal action will not affect the TMDLs for Siltation/Turbidity established in the same TMDL document.

The lead TMDL is being withdrawn in this unique circumstance based on uncertainty in the representativeness of the data associated with the original listing for lead in Big Creek near Sheridan (reach 08040203-904) and, therefore, the questionable need for the TMDL.

SUPPLEMENTARY INFORMATION: The TMDLs were developed under EPA Contract Number 68-C-02-108. The **Federal Register** (FR) notice of availability, seeking public comments on the draft TMDLs, was published on December 17, 2007 (72 FR 71409). Public comments were received by January 16, 2008, and a response to each comment was provided. The FR notice of availability for the final TMDLs was published on August 14, 2008 (see 73 FR 47596). The FR notice seeking public comments on the proposed withdrawal for the lead TMDL for reach 08040203-904 was published on April 21, 2014. The comment period ended on May 21, 2014, and the EPA did not receive any adverse comments relating to the proposed withdrawal action.

SUPPLEMENTARY INFORMATION:

A. Purpose

The Helium Act (Pub. L. 86–777) (50 U.S.C. 167a, *et seq.*) and the Department of the Interior’s implementing regulations (30 CFR parts 601 and 602) require Federal agencies to procure all major helium requirements from the Bureau of Land Management, Department of the Interior.

FAR 8.5, Acquisition of Helium, and the clause 52.208–8 Required Sources for Helium and Helium Usage Data, requires that the Contractor provide to the Contracting Officer the following data within 10 days after the Contractor or subcontractor receives a delivery of helium from a Federal helium supplier; (i) The name of the supplier; (ii) The amount of helium purchased; (iii) The delivery date(s); and (iv) the location where the helium was used. Such information will facilitate enforcement of the requirements of the Helium Act and the contractual provisions requiring the use of Government helium by agency contractors.

The information is used in administration of certain Federal contracts to ensure contractor compliance with contract clauses. Without the information, the required use of Government helium cannot be monitored and enforced effectively. The FAR requires that the contractor provide helium purchase information 10 days after delivery from a federal helium supplier, not for the contractor to forecast what they are going to purchase.
