Animal Plant and Health Inspection Service

Title: Bees and Related Articles.

OMB Control Number: 0579–0207.

Summary of Collection: The Plant Protection Act (APA) (7 U.S.C. 7701 *et seq.*), authorizes the Secretary of Agriculture to prohibit or restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Under the Honeybee Act (7 U.S.C. 281–286), the Secretary is authorized to prohibit or restrict the importation of honeybee semen to prevent the introduction into the United States of diseases and parasites harmful to honeybees and of undesirable species and subspecies of honeybees. The Animal and Plant Health Inspection Service (APHIS), Plant Protection and Quarantine (PPQ), is responsible for implementing the intent of these Acts, and does so through the enforcement of its pollinator regulations and honeybee regulations.

Need and Use of the Information: APHIS collects information from a variety of individuals who are involved in breeding, exporting, importing, and containing bees and related articles. The information APHIS collects serves as the supporting documentation needed to issue required PPQ forms and documents that allow importation of bees and related articles or authorizes the release of bees. This documentation is vital to helping APHIS ensure that exotic bee diseases and parasites, and undesirable species and subspecies of honeybees, do not spread into or within the United States. Without the information APHIS could not verify that imported bees and related articles do not present a significant risk of introducing exotic bee disease, parasites, and undesirable species and subspecies of honeybees.
