

avocados and those shipped within the production area must meet the applicable requirements for grade, as specified in the United States Standards for Grades of Florida Avocados (7 CFR 51.3050 through 51.3069) issued under the Agricultural Marketing Act of 1946 (7 U.S.C. 1621 through 1627).

Further, the Committee's meeting was widely publicized throughout the Florida avocado industry, and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the June 12, 2013, meeting was a public meeting. All entities, both large and small, were able to express views on this issue. Finally, interested persons are invited to submit comments on this proposed rule, including the regulatory and informational impacts of this action on small businesses.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/MarketingOrdersSmallBusinessGuide>. Any questions about the compliance guide should be sent to Jeffrey Smutny at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

In accordance with section 8e of the Act, the United States Trade Representative has concurred with the issuance of this proposed rule.

A 30-day comment period is provided to allow interested persons to respond to this proposal. Thirty days is deemed appropriate as this proposed rule should be in place as soon as possible because handlers begin shipping in mid-May, and the technical correction to the import regulation is to clarify that the grade requirement is unchanged. All written comments timely received will be considered before a final determination is made on this matter.

[Docket No. RM14–11–000]

Open Access and Priority Rights on Interconnection Customer's Interconnection Facilities

AGENCY: Federal Energy Regulatory Commission, Energy.

ACTION: Notice of proposed rulemaking; correction.

SUMMARY: This document contains corrections to the proposed rule (RM14–11–000) which published in the **Federal Register** of Friday, May 30, 2014 (79 FR 31061). The regulation proposed to amend regulations to waive the Open Access Transmission Tariff requirements, the Open Access Same-Time Information System requirements of its regulations, and the Standards of Conduct requirements of its regulations,

for any public utility that is subject to such requirements solely because it owns, controls, or operates Interconnection Customer's Interconnection Facilities, in whole or in part, and sells electric energy from its Generating Facility, as those terms are defined in the *pro forma* Large Generator Interconnection Procedures and the *pro forma* Large Generator Interconnection Agreement and adopted in Order No. 2003. The Commission proposed to find that requiring the filing of an Open Access Transmission Tariff is not necessary to prevent unjust or unreasonable rates or unduly discriminatory behavior with respect to Interconnection Customer's Interconnection Facilities over which interconnection and transmission services can be ordered pursuant to sections 210, 211, and 212 of the Federal Power Act.

DATES: Comments are due July 29, 2014.

RIN 1820–AB66

Vocational Rehabilitation Services Projects for American Indians With Disabilities

AGENCY: Rehabilitation Services Administration, Office of Special Education and Rehabilitative Services, Department of Education (RSA).

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Secretary proposes to amend the definition of “reservation” under the regulations governing the American Indian Vocational Rehabilitation Services (AIVRS) program in one of two ways.

The first proposed amendment, “Alternative A,” would conform the definition to the Department’s current interpretation and practices. In order to be eligible for a grant, a federally or State recognized tribe must be located on a Federal or State reservation. The statutory definition of “reservation” includes Federal or State Indian reservations; public domain Indian

allotments; former Indian reservations in Oklahoma; and land held by incorporated Native groups, regional corporations, and village corporations under the provisions of the Alaska Native Claims Settlement Act. The Department’s “Alternative A” definition would also include as a reservation “defined areas of land recognized by a State or the Federal Government where there is a concentration of tribal members and on which the tribal government is providing structured activities and services.”

The second proposed amendment to the regulatory definition of “reservation,” “Alternative B,” would limit the areas of land the Department considers to be reservations to those that are listed in the statutory definition of “reservation”: Federal or State Indian reservations; public domain Indian allotments; former Indian reservations in Oklahoma; or land held by incorporated Native groups, regional corporations, and village corporations under the provisions of the Alaska Native Claims Settlement Act.

The Secretary seeks comment on both alternatives.
