

the same side of the market as the initiating order crosses the original NBBO price on the opposite side of the market. The Exchange believes that this change will help facilitate transactions, remove impediments to and perfect the mechanism of a free and open market by freeing up interest in the liquidity refresh pause when conditions have changed that renders the initiating order and same side joiners no longer marketable to the benefit of market participants. The proposed change will also help eliminate potential confusion on behalf of market participants by clearly stating the System's functionality in this situation.

2. Statutory Basis

MIAX believes that its proposed rule change is consistent with Section 6(b) of the Act⁴ in general, and furthers the objectives of Section 6(b)(5) of the Act⁵ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The proposal to end the liquidity refresh pause due to the ABBO on the same side of the market as the initiating order crosses the original NBBO price on the opposite side of the market is designed to facilitate transactions, to remove impediments to and perfect the mechanism of a free and open market by freeing up interest in the liquidity refresh pause when conditions have changed that renders the initiating order and same side joiners no longer marketable to the benefit of market participants. The proposal also promotes the protection of investors and the public interest by codifying existing functionality in a manner that should reduce confusion for Exchange members regarding the termination of a liquidity refresh pause.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange believes the proposed changes will not impose any burden on intra-market competition because it

applies to all MIAX participants equally. In addition, the Exchange does not believe the proposal will impose any burden on inter-market competition as the proposal is intended to protect investors by providing further transparency regarding the Exchange's price protection functionality.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission shall: (a) By order approve or disapprove such proposed rule change, or (b) institute proceedings to determine whether the proposed rule change should be disapproved.
