Electronic Records Express—20 CFR 404.1512 and 416.912—0960–0753

Electronic Records Express (ERE) is a web-based SSA program that allows medical and educational providers to electronically submit disability claimant data to SSA. Both medical providers and other third parties with connections to disability applicants or recipients (e.g., teachers and school administrators for child disability applicants) use this system once they complete the registration process. SSA employees and State agency employees request the medical and educational records collected through the ERE Web site. The agency uses the information collected through ERE to make a determination on an Application for Benefits. We also use the ERE Web site to order and receive consultative examinations when we are unable to collect enough medical records to determine disability findings. The respondents are medical providers who evaluate or treat disability claimants or recipients, and other third parties with connections to disability applicants or recipients (ex: Teachers and school administrators for child disability applicants), who voluntarily choose to use ERE for submitting information.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
ERE	4,508,968	1	10	751,495

Dated: June 18, 2014.

Reports Clearance Director, Social Security Administration.
