

alloy steel which contains only small amounts of alloying elements. Specifically, the term carbon-quality includes products in which none of the elements listed below exceeds the quantity by weight respectively indicated: 1.80 percent of manganese, or 2.25 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.15 percent vanadium, or 0.15 percent of zirconium. The description of carbon-quality is intended to identify carbon-quality products within the scope. The welded carbon-quality rectangular pipe and tube subject to the *Orders* is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7306.61.50.00 and 7306.61.70.60. While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the orders is dispositive.

Continuation of the Orders

As a result of the determinations by the Department and the ITC that revocation of the *AD Orders* and the *CVD Order* would likely lead to continuation or recurrence of dumping and a countervailable subsidy, and material injury to an industry in the United States, pursuant to sections 751(c) and 751(d)(2) of the Act, the Department hereby orders the continuation of the *AD Orders* and the *CVD Order*.

U.S. Customs and Border Protection will continue to collect cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of the *AD Orders* and the *CVD Order* is the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next sunset reviews of these orders not later than 30 days prior to the fifth anniversary of the effective date of this continuation.

These sunset reviews and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: June 13, 2014.

Lynn Fischer Fox,
Deputy Assistant Secretary for Policy and Negotiations.

Small Diameter Graphite Electrodes From the People's Republic of China: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) and the International Trade Commission (the ITC) have determined that revocation of the antidumping duty (AD) order on small diameter graphite electrodes from the People's Republic of China (PRC) would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States. Therefore, the Department is publishing a notice of continuation of this AD order.

DATES: *Effective Date:* June 23, 2014.

FOR FURTHER INFORMATION CONTACT: Michael Romani or Mino Hatten, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-0198 or (202) 482-1690, respectively.

SUPPLEMENTARY INFORMATION:

Background

On January 2, 2014, the Department published the initiation of the first sunset review of the AD order on small diameter graphite electrodes from the PRC pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.218(c).¹ As a result of its review, the Department determined that revocation of the AD order on small diameter graphite electrodes from the PRC would likely lead to continuation or recurrence of dumping, and notified the ITC of the magnitude of the margins likely to prevail should the order be revoked.² On June 6, 2014, pursuant to section 751(c) of the Act, the ITC determined that revocation of the AD order on small diameter graphite electrodes from the PRC would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.³

¹ See *Initiation of Five-Year ("Sunset") Review*, 79 FR 110 (January 2, 2014).

² See *Small Diameter Graphite Electrodes From the People's Republic of China: Final Results of the Expedited Sunset Review of the Antidumping Duty Order*, 79 FR 26208 (May 7, 2014).

³ See *Small Diameter Graphite Electrodes From China*, 79 FR 32750 (June 6, 2014).

Scope of the Order

The merchandise covered by the order includes all small diameter graphite electrodes of any length, whether or not finished, of a kind used in furnaces, with a nominal or actual diameter of 400 millimeters (16 inches) or less, and whether or not attached to a graphite pin joining system or any other type of joining system or hardware. The merchandise covered by the order also includes graphite pin joining systems for small diameter graphite electrodes, of any length, whether or not finished, of a kind used in furnaces, and whether or not the graphite pin joining system is attached to, sold with, or sold separately from, the small diameter graphite electrodes. Small diameter graphite electrodes and graphite pin joining systems for small diameter graphite electrodes are most commonly used in primary melting, ladle metallurgy, and specialty furnace applications in industries including foundries, smelters, and steel refining operations. Small diameter graphite electrodes and graphite pin joining systems for small diameter graphite electrodes that are subject to the order are currently classified under the HTSUS subheadings 8545.11.0010,⁴ 3801.10,⁵ and 8545.11.0020.⁶ The HTSUS numbers are provided for convenience and customs purposes, but the written description of the scope is dispositive.

Continuation of the Order

As a result of the determinations by the Department and the ITC that revocation of the AD order would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19

⁴ The scope described in the order refers to the HTSUS subheading 8545.11.0000. We note that, starting in 2010, imports of small diameter graphite electrodes are classified in the HTSUS under subheading 8545.11.0010 and imports of large diameter graphite electrodes are classified under subheading 8545.11.0020.

⁵ See *Small Diameter Graphite Electrodes From the People's Republic of China: Affirmative Final Determination of Circumvention of the Antidumping Duty Order*, 77 FR 47596 (August 9, 2012) and accompanying Issues and Decision Memorandum at Comment 6 (the scope of the order is amended to include imports classifiable under HTSUS 3801.10, *i.e.*, un-finished small diameter graphite electrodes).

⁶ See *Small Diameter Graphite Electrodes From the People's Republic of China: Affirmative Final Determination of Circumvention of the Antidumping Duty Order and Rescission of Later-Developed Merchandise Anticircumvention Inquiry*, 78 FR 56864 (September 16, 2013) and accompanying Issues and Decision Memorandum at Comments 1 and 2 (the scope of the order is amended to include large diameter graphite electrodes, specifically those of 17 inches produced by Jilin Carbon classifiable under HTSUS 8545.11.0020).

CFR 351.218(a), the Department hereby orders the continuation of the AD order on small diameter graphite electrodes from the PRC. Customs and Border Protection (CBP) will continue to collect AD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of the orders will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act and 19 CFR 351.218(c)(2), the Department intends to initiate the next five-year review of this order not later than 30 days prior to the fifth anniversary of the effective date of this continuation notice.

This sunset review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: June 16, 2014.

Lynn Fischer Fox,

Deputy Assistant Secretary for Policy and Negotiations.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

Reestablishment of the Renewable Energy and Energy Efficiency Advisory Committee and Solicitation of Nominations for Membership

AGENCY: Renewable Energy and Energy Efficiency Advisory Committee: International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of Reestablishment of the Renewable Energy and Energy Efficiency Advisory Committee and Solicitation of Nominations for Membership.

SUMMARY: Pursuant to provisions of the Federal Advisory Committee Act, 5 U.S.C. App., the Department of Commerce announces the reestablishment of the Renewable Energy and Energy Efficiency Advisory Committee (the Committee). The Committee shall advise the Secretary of Commerce regarding the development and administration of programs and policies to expand the competitiveness of U.S. exports of renewable energy and energy efficiency goods and services, in accordance with applicable United States regulations. The Committee's work on energy efficiency will focus on technologies, services, and platforms that provide system-level energy

efficiency to electricity generation, transmission, and distribution. These include smart grid technologies and services, as well as equipment and systems that increase the resiliency of power infrastructure. For the purposes of this Committee, covered goods and services will not include vehicles, feedstock for biofuels, or energy efficiency as it relates to consumer goods. Non-fossil fuels that are considered renewable fuels (e.g., liquid biofuels and pellets) are included. This notice also requests nominations for membership.

DATES: Nominations for members must be received on or before 4:00 p.m. Eastern Daylight Time (EDT) on August 15, 2014.

Nominations: The Secretary of Commerce invites nominations to the committee, of U.S. citizens who will represent U.S. companies in the renewable energy and energy efficiency sector that trade internationally, or U.S. trade associations or other U.S. private sector organizations with activities focused on the competitiveness of U.S. exports of renewable energy and energy efficiency goods and services. No member may represent a company that is majority owned or controlled by a foreign government entity or foreign government entities. Nominees meeting the eligibility requirements will be considered based upon their ability to carry out the goals of the Committee as articulated above. If you are interested in applying or nominating someone else to become a member of the Committee, please provide the following information:

(1) Sponsor letter on the company's, trade association's or organization's letterhead containing the name, title, and relevant contact information (including phone, fax, and email address) of the individual requesting consideration;

(2) An affirmative statement that the nominee will be able to meet the expected time commitments of Committee work. Committee work includes (1) attending in-person committee meetings roughly four times per year (lasting one day each), (2) undertaking additional work outside of full committee meetings including subcommittee conference calls or meetings as needed, and (3) frequently drafting, preparing, or commenting on proposed recommendations to be evaluated at Committee meetings;

(3) Short biography of nominee, including credentials;

(4) Brief description of the company, trade association, or organization to be represented and its business activities;

company size (number of employees and annual sales); and export markets served;

(5) An affirmative statement that the nominee is not a Federally registered lobbyist, and that the nominee understands that if appointed, he/she will not be allowed to continue to serve as a Committee member if the nominee becomes a Federally registered lobbyist;

(6) An affirmative statement that the nominee meets all Committee eligibility requirements. Please do not send company, trade association, or organization brochures or any other information.

Nominations may be emailed to Ryan.Mulholland@trade.gov or faxed to the attention of Ryan Mulholland at 202-482-5665, or mailed to Ryan Mulholland, Office of Energy & Environmental Industries, Room 4053, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230, and must be received before August 15, 2014. Nominees selected for appointment to the Committee will be notified by return mail.

FOR FURTHER INFORMATION CONTACT:

Ryan Mulholland, Office of Energy & Environmental Industries, Room 4053, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; phone 202-482-4693; fax 202-482-5665; email Ryan.Mulholland@trade.gov.

Dated: June 17, 2014.

Edward A. O'Malley,

Director, Office of Energy and Environmental Industries.
