

will result in a taking of private property, the waiver provision will shield the United States from claims involving implementation of the proposed clause. The Forest Service has broad authority to include appropriate terms and conditions in ski area permits. A ski area permit is a voluntary transaction, and a holder can decline the permit and retain ownership interest in water rights or accept the permit subject to its new conditions.

Civil Justice Reform

The Agency has reviewed the proposed directive under E.O. 12988 on civil justice reform. If the proposed directive were adopted, (1) all State and local laws and regulations that conflict with the proposed directive or that would impede its full implementation would be preempted; (2) no retroactive effect would be given to the proposed directive; and (3) it would not require administrative proceedings before parties file suit in court challenging its provisions.

Federalism and Consultation and Coordination With Indian Tribal Governments

The Agency has considered the proposed directive under the requirements of E.O. 13132 on federalism and has concluded that the proposed directive conforms to the federalism principles. The proposed directive would not impose any compliance costs on the States; and have substantial direct effects on the States or the relationship between the Federal Government and the States; or the distribution of power and responsibilities among the various levels of government. Therefore, the Agency has determined that no further assessment of federalism implications is necessary at this time.

The proposed directive does not have tribal implications as defined by E.O. 13175, entitled "Consultation and Coordination with Indian Tribal Governments," and therefore advance consultation with Tribes is not required. Consultation will be concurrent with this **Federal Register** notice.

Energy Effects

The Agency has reviewed the proposed directive under E.O. 13211, entitled "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use." The Agency has determined that the proposed directive does not constitute a significant energy action as defined in the E.O.

Unfunded Mandates

Pursuant to Title II of the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538), the Agency has assessed the effects of the proposed directive on State, local, and Tribal governments and the private sector. The proposed directive would not compel the expenditure of \$100 million or more by any State, local, or Tribal government or anyone in the private sector. Therefore, a statement under section 202 of the act is not required.

Controlling Paperwork Burdens on the Public

In accordance with section 3507(d) of the Paperwork Reduction Act of 1995, (44 U.S.C. 3501 *et seq.*), the information collection requirements included in this proposed rule have been submitted to the Office of Management and Budget.

The bonding requirement in the proposed directive would be implemented using Standard Form 25, Performance Bond, which has been approved by OMB and assigned control number 9000–0045. Use of form SF–25 Performance Bond is new for the Forest Service special uses program. Additionally, the proposed directive involves a revision to the inventory of water rights associated with operation of the ski area by adding separate charts for changed or exchanged water rights (para. d) and water rights for diversions from non-NFS lands for use on NFS lands within the permit boundary (para. e). Furthermore, there is a new requirement to document restrictions on withdrawal and use of water, if applicable. Upon approval of the final rule, the burden associated with this information collection will be incorporated into OMB control number 0596–0082, *Special Uses* for utilization of form FS–2700–5b, *Ski Area Term Special Use Permit*. However, other than the collection of information required for the bonding requirement, the inventory of water rights, and the documentation of restrictions on withdrawal and use of water, all other information collection requirements associated with special use authorizations, including the ski area term special use permit, are already covered by control number 0596–0082.

The following summarizes the information collection requirement associated with the proposed bonding requirement, the inventory of water rights, and the documentation of restrictions on the withdrawal and use of water:

OMB Control Number: 0596—NEW.
Estimated Burden per Response: 2 Hours.

Type of Respondents: ski area permit holders.

Estimated Annual Number of Respondents: 40.

Estimated Annual Average Number of Responses per Respondent: 1.5.

Estimated Total Annual Burden on Respondents: 120 hours.

Comment is invited on (1) whether this collection of information is necessary for the stated purposes and proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden for collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the package submitted to OMB for approval.

5. Access to the Proposed Directive

The Forest Service organizes its Directive System by alphanumeric codes and subject headings. The intended audience for this direction is Forest Service employees charged with issuing and administering ski area permits. To view the proposed directive, visit the Forest Service's Web site at <http://www.fs.fed.us/specialuses>. Only the sections of the FSH and FSM that are the subject of this notice have been posted, i.e., FSH 2709.11, Special Uses Handbook, Chapter 50, Standard Forms and Supplemental Clauses, Section 52.4, and FSM 6560.5, Bonding Administration.

Dated: June 17, 2014.

Thomas L. Tidwell,

Chief, U.S. Forest Service.

BILLING CODE 3411–15–P

DEPARTMENT OF AGRICULTURE

Grain Inspection, Packers and Stockyards Administration

Advisory Committee Meeting

AGENCY: Grain Inspection, Packers and Stockyards Administration, USDA.

ACTION: Notice of advisory committee meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, this constitutes notice of the upcoming meeting of the Grain Inspection, Packers and Stockyards Administration (GIPSA) Grain Inspection Advisory Committee (Advisory Committee). The Advisory Committee meets annually to advise the GIPSA Administrator on the programs and services that GIPSA delivers under the U.S. Grain Standards Act. Recommendations by the Advisory Committee help GIPSA better meet the needs of its customers who operate in a dynamic and changing marketplace.

DATES: July 15, 2014, 8:00 a.m. to 4:30 p.m.; and July 16, 2014, 8:00 a.m. to Noon.

ADDRESSES: The Advisory Committee meeting will take place at GIPSA's National Grain Center, 10383 N. Ambassador Drive, Kansas City, Missouri 64153.

Requests to orally address the Advisory Committee during the meeting or written comments may be sent to: Administrator, GIPSA, U.S. Department of Agriculture, 1400 Independence Avenue SW., STOP 3601, Washington, DC 20250-3601. Requests and comments may also be faxed to (202) 690-2173.

FOR FURTHER INFORMATION CONTACT: Terri L. Henry by phone at (202) 205-8281 or by email at Terri.L.Henry@usda.gov.

SUPPLEMENTARY INFORMATION: The purpose of the Advisory Committee is to provide advice to the GIPSA Administrator with respect to the implementation of the U.S. Grain Standards Act (7 U.S.C. 71-87k). Information about the Advisory Committee is available on the GIPSA Web site at <http://www.gipsa.usda.gov/fgis/adcommit.html>.

The agenda will include an overview of international activities, quality control initiatives, moisture meters, market overview, optical scanning for rice brokens, Field Management Division updates and initiatives, standards and market needs, and inspector performance.

For a copy of the agenda please contact Terri L. Henry by phone at (202) 205-8281 or by email at Terri.L.Henry@usda.gov.

Public participation will be limited to written statements unless permission is received from the Committee Chairperson to orally address the Advisory Committee. The meeting will be open to the public.

Persons with disabilities who require alternative means of communication of program information or related

accommodations should contact Terri L. Henry at the telephone number listed above.

Susan B. Keith,

Acting Administrator, Grain Inspection, Packers and Stockyards Administration.

Light-Walled Rectangular Pipe and Tube From Mexico, Turkey, the People's Republic of China, and the Republic of Korea: Continuation of Antidumping and Countervailing Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has determined that revocation of the antidumping (AD) orders on light-walled rectangular pipe and tube (light-walled pipe and tube) from Mexico, Turkey, the People's Republic of China (PRC), and the Republic of Korea (Korea) would likely lead to continuation or recurrence of dumping, and that revocation of the countervailing duty (CVD) order on light-walled pipe and tube from the PRC would likely lead to continuation or recurrence of a countervailable subsidy. The U.S. International Trade Commission (the ITC) has also determined that revocation of these AD and CVD orders would likely lead to a continuation or recurrence of material injury to an industry in the United States. Accordingly, the Department is publishing this notice of the continuation of these AD and CVD orders.

DATES: *Effective Date:* June 23, 2014.

FOR FURTHER INFORMATION CONTACT: Dena Crossland or Angelica Mendoza, AD/CVD Operations Office VI (AD), or Jennifer Meek or Nancy Decker, AD/CVD Operations Office I (CVD), Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-3362 or (202) 482-3019, respectively.

SUPPLEMENTARY INFORMATION:

Background

On April 2, 2013, the Department of Commerce (the Department) initiated the first five-year ("sunset") reviews of the AD orders on light-walled pipe and tube from Mexico, Turkey, the PRC, and Korea¹ (collectively, the *AD Orders*) and the first sunset review of the countervailing duty order on light-walled pipe and tube from the PRC² (*CVD Order*) pursuant to sections 751(c) and 752 of the Tariff Act of 1930, as amended (the Act).³ As a result of these sunset reviews, the Department found that revocation of the *AD Orders* would likely lead to continuation or recurrence of dumping and that revocation of the *CVD Order* would likely lead to continuation or recurrence of countervailable subsidies and, therefore, notified the ITC of the magnitude of the margins of dumping and the subsidy rates likely to prevail should the *AD Orders* and the *CVD Order* be revoked.⁴

On June 13, 2014, the ITC published its determination, pursuant to sections 751(c)(1) and 752(a) of the Act, that revocation of the *AD Orders* and the *CVD Order* would likely lead to continuation or recurrence of material injury within a reasonably foreseeable time.⁵

Scope of the Orders

The merchandise subject to the orders is certain welded carbon quality light-walled steel pipe and tube, of rectangular (including square) cross section, having a wall thickness of less than 4 mm. The term carbon-quality steel includes both carbon steel and
