#### **Summary**

Notice of this meeting is given under sec. 10(a)(2) of the Federal Advisory Committee Act, (FACA), 5 U.S.C. App. (Pub. L. 92-463). The Aviation Security

Advisory Committee operates under the authority of 6 U.S.C. 451 and provides advice and recommendations for improving aviation security measures to the Administrator of TSA.

For the closed portion of the meeting, the ASAC will receive a SSI briefing on threat intelligence related to aviation. The second portion of the meeting will be open to the public and will focus on items listed in the "Meeting Agenda" section below. Members of the public and all non-ASAC members and staff must register in advance with their full name to attend. Due to space constraints the meeting is limited to 75 people, including ASAC members and staff, on a first to register basis. Attendees are required to present a government-issued photo identification to verify identity.

In addition, members of the public must make advance arrangements, as stated below, to present oral or written statements specifically addressing issues pertaining to the items listed in the "Meeting Agenda" section below. The public comment period will be held during the meeting from approximately 12:30 p.m. to 1:00 p.m., depending on the meeting progress. Speakers are requested to limit their comments to three minutes. Contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section no later than July 4, 2014, to register to attend the meeting and/or to present oral or written statements on the reports being considered by the committee at the meeting. Anyone in need of assistance or a reasonable accommodation for the meeting should contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

#### *Basis for Closure*

In accordance with sec. 10(d) of the Federal Advisory Committee Act (FACA), it has been determined that this meeting requires partial closure. The meeting will be closed to the public in accordance with the provisions set forth under 5 U.S.C. 552b(c)(3), 552b(c)(7)(E)-(F) and 552b(c)(9)(B), as amended.

The Transportation Security Administration will be providing a SSI briefing to the ASAC on threat intelligence related to aviation. Specifically, there will be material presented regarding the latest viable threats against U.S. aviation security and how the TSA plans to address those threats using a risk-based security framework. Further, providing this information to the public could provide terrorists with a road map regarding TSA's and DHS's plans to counter their actions, and thus allow them to take different actions to avoid counterterrorism measures. Under 5

U.S.C. 552b(c)(7)(E)–(F), disclosure of this information could reveal investigative techniques and procedures not generally available to the public, allowing those with interests against the United States to circumvent the law, thereby endangering the life or physical safety of law enforcement personnel. Additionally, premature disclosure of this information would be likely to significantly frustrate the successful implementation of measures designed to counter terrorist acts. See 5 U.S.C. 552b(c)(9)(B).

The briefing will include Sensitive Security Information (SSI, as that term is defined under 49 U.S.C. 114 (r) and 49 CFR part 1520). Sensitive Security Information includes information that would be detrimental to the security of transportation, and may not be disclosed to the general public. Accordingly, this portion of the meeting is closed under 5 U.S.C. 552b(c)(3).

Partial closure of the July 11, 2014, ASAC meeting is warranted under 5 U.S.C. 552b(c)(3), (c)(7)(E)–(F) and (c)(9)(B).

#### Meeting Agenda

#### SUPPLEMENTARY INFORMATION:

##### Background

On April 6, 2012, U.S. Customs and Border Protection (CBP) published in the **Federal Register** a notice announcing a National Customs Automation Program (NCAP) test called the Document Image System (DIS) test. See 77 FR 20835. The DIS test allows Automated Commercial Environment (ACE) participants to submit electronic images of a specific set of CBP and Partner Government Agency (PGA) forms and supporting information to CBP. Specifically, importers and brokers are allowed to submit specified official CBP documents and specified PGA

forms via a CBP-approved Electronic Data Interchange (EDI) (please see *Section V, “Technical Specifications”*, below for details).

On July 23, 2013, CBP published a subsequent notice announcing modifications to both the DIS NCAP test as well as the Simplified Entry test. See 78 FR 44142. On August 29, 2013, CBP published a notice correcting an error in the description of Animal and Plant Health Inspection Service (APHIS) document PPQ Form 586. See 78 FR 53466. The Simplified Entry test has been renamed as the ACE Cargo Release test. See 78 FR 66039 (November 4, 2013).

The NCAP was established in Subtitle B of Title VI—Customs Modernization, in the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057, 2170, December 8, 1993) (Customs Modernization Act). See 19 U.S.C. 1411. Through NCAP, the initial thrust of customs modernization was on trade compliance and the development of ACE, the planned successor to the Automated Commercial System (ACS). ACE is an automated and electronic system for commercial trade processing which is intended to streamline business processes, facilitate growth in trade, ensure cargo security, and foster participation in global commerce, while ensuring compliance with U.S. laws and regulations and reducing costs for CBP and all of its communities of interest. The ability to meet these objectives depends on successfully modernizing CBP’s business functions and the information technology that supports those functions. CBP’s modernization efforts are accomplished through phased releases of ACE component functionality designed to introduce new functionality or to replace a specific legacy ACS function. Each release will begin with a test and will end with mandatory compliance with the new ACE feature, thus retiring the legacy ACS function. Each release builds on previous releases and sets the foundation for subsequent releases.

For the convenience of the public, a chronological listing of **Federal Register** publications detailing ACE test developments in Entry, Summary, Accounts and Revenue (ESAR) is set forth below in *Section VI*, entitled, “*Development of ACE Prototypes*”. The eligibility criteria, procedures, terms, conditions and rules set forth in the previous DIS notices remain in effect unless otherwise explicitly changed by this or subsequent notices published in the **Federal Register**.
