

Following closure of the public comment period, an EPA contractor will organize and conduct an independent expert external letter peer review of the draft criterion document. Public comments will be made available to the peer reviewers for consideration during their review. Following peer review, EPA will consider the peer reviewer and public comments, and revise the document as necessary. EPA will then publish a **Federal Register** notice announcing the availability of the draft proposed selenium criterion and soliciting scientific views from the public. EPA will then revise the document as necessary and issue a final updated selenium criterion document.

Dated: June 18, 2014.

Elizabeth Southerland,

Director, Office of Science and Technology.
