Title: Application for Renewal of Radio Station License for Experimental Radio Service, FCC Form 405.

Form No.: FCC Form 405.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or household, business or other for-profit and not-for-profit institutions.

Number of Respondents and Responses: 350 respondents and 350 responses.

Estimated Time per Response: 2.25 hour.

Frequency of Response: On occasion and every two year reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection (IC) is contained in sections 4(i), 301, 302, 303(e), 303(f), and 303(r), of the Communications Act of 1934, as amended; 47 U.S.C. 154(i), 301, 302, 303(e), 303(f) and 303(r).

Total Annual Burden: 787.5 hours.

Total Annual Cost: \$117,250.

Privacy Act Impact Assessment: This information collection affects individuals or households. The Commission has a System of Records, FCC/OET-1 "Experimental Radio Station License Files" which cover the personally identifiable information (PII) that individual applicants may include in their submissions for experimental radio authorizations. The system of records notice (SORN) was published in the **Federal Register** on April 5, 2006, see 71 FR 17234, 17241. The SORN may be viewed at <http://www.fcc.gov/omd/privacyact/records-systems.html>.

Nature and Extent of Confidentiality: Applicants may request that any information supplied be withheld from public inspection, e.g., granted confidentiality, pursuant to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: This collection will be submitted as an extension (no change in reporting requirements), after this 60 day comment period in order to obtain the full three year clearance from the OMB.

FCC Form 405 is used by the Experimental Radio Service to apply for renewal of radio station licenses at the FCC. Section 307 of the Communications Act of 1934, as amended, limits the term of radio licenses to five years and requires that written applications be submitted for renewal. The regular license period for stations in the Experimental Radio Service is either two or five years.

The information submitted on FCC Form 405 is used by the Commission staff to evaluate the applicant/licensee's need for a license renewal. In performing this function, staff performs analysis of the renewal request as compared to the original license grant to ascertain if any changes are requested. If so, additional analysis is performed to determine if such changes met the requirements of the rules of the Experimental Radio Service for interference free operation. If needed, the collected information is used to coordinate such operation with other Commission bureaus or other Federal Agencies. All applications are also analyzed on their merits regarding whether they meet the general requirements for an Experimental license. These requirements are set out in 47 CFR part 5.
