

Type of Review: New Information Collection.

Affected Public: Prime contractors and small businesses participating in DOT's Mentor Protégé Program.

Estimated Annual Number of Responses: 16

Frequency: One-time.

Estimated Average Burden per Response: 1 hour per respondent.

Estimated Total Annual Burden Hours: 16 hours.

Extending the Duration of the Relationship

The duration of the mentorship will be determined by the mentor and protégé. We anticipate in most cases, this period will be 12 months, but some participants may want to extend their mentorship relationship. Currently, the DOT allows for this relationship to be extended up to 24 months. However, the DOT proposes to amend the 24 month cap and allow the relationship to be extended up to 36 months. We received anecdotal information from program participants and other businesses expressing that a longer relationship may be beneficial to the firms. Program participants should be able to develop long range developmental plans up to 36 months benefiting small business concerns to receive additional technical assistance; otherwise not received due to time constraints and limitations. In addition, other federal government Mentor-Protégé programs allow their participants to establish a relationship for up to 36 months.

Reports Beyond Program Participation

DOT's Mentor Protégé program's primary goal is to provide developmental assistance to help small business to compete and perform on federal procurement opportunities. It's important to DOT to ensure the developmental assistance received by protégés during their program participation helps them to succeed beyond the term of the Mentor Protégé agreement. DOT will request firms participating as protégés in the program to agree to report its progress to the OSDBU annually for two (2) years after exiting the program. OSDBU will not request this of Mentors.

For additional information related to the Mentor Protégé program, visit OSDBU's Web site at www.dot.gov/osdbu.
