

associated environmental impacts. In addition, non-Federal actors are crucial contributors to energy policies. Because most energy and related infrastructure is owned by private entities, investment by and engagement of the private sector is necessary to develop and implement effective policies. State and local policies; the views of nongovernmental, environmental, faith-based, labor, and other social organizations; and contributions from the academic and non-profit sectors are also critical to the development and implementation of effective energy policies.

An interagency Quadrennial Energy Review Task Force, which includes members from all relevant executive departments and agencies (agencies), will develop an integrated review of energy policy that integrates all of these perspectives. It will build on the foundation provided in the Administration's *Blueprint for a Secure Energy Future* of March 30, 2011, and *Climate Action Plan* released on June 25, 2013. The Task Force will offer recommendations on what additional actions it believes would be appropriate. These may include recommendations on additional executive or legislative actions to address the energy challenges and opportunities facing the Nation.

July 11, 2014 Public Meeting: Electricity Transmission, Storage, and Distribution—West, July 11, 2014, Portland, Oregon.

On July 11, 2014, the DOE will hold a public meeting in Portland, Oregon. The July 11, 2014 public meeting will feature facilitated panel discussions, followed by an open microphone session. Persons desiring to speak during the open microphone session at the public meeting should come prepared to speak for no more than 5 minutes and will be accommodated on a first-come, first-serve basis, according to the order in which they register to speak on a sign-in sheet available at the meeting location, on the morning of the meeting.

In advance of the meeting, DOE anticipates making publicly available a briefing memorandum providing useful background information regarding the topics under discussion at the meeting. DOE will post this memorandum on its Web site: <http://energy.gov>.

Submitting comments via email. Submitting comments by email to the QER email address will require you to provide your name and contact information in the transmittal email. Your contact information will be viewable to DOE staff only. Your contact information will not be publicly viewable except for your first and last names, organization name (if any), and

submitter representative name (if any). Your contact information will be publicly viewable if you include it in the comment itself or in any documents attached to your comment. Any information that you do not want to be publicly viewable should not be included in your comment, nor in any document attached to your comment. Otherwise, persons viewing comments will see only first and last names, organization names, correspondence containing comments, and any documents submitted with the comments.

Do not submit to the QER email address (QERcomments@hq.doe.gov) information for which disclosure is restricted by statute, such as trade secrets and commercial or financial information (hereinafter referred to as Confidential Business Information (CBI)). Comments submitted to the QER email address cannot be claimed as CBI. Comments received through the email address will waive any CBI claims for the information submitted. For information on submitting CBI, see the Confidential Business Information section, below.

If you do not want your personal contact information to be publicly viewable, do not include it in your comment or any accompanying documents. Instead, provide your contact information in a cover letter. Include your first and last names, email address, telephone number, and optional mailing address. The cover letter will not be publicly viewable as long as it does not include any comments.

Include contact information each time you submit comments, data, documents, and other information to DOE. If you submit via mail or hand delivery/courier, please provide all items on a CD, if feasible, in which case it is not necessary to submit printed copies. No telefacsimiles (faxes) will be accepted.

Comments, data, and other information submitted to DOE electronically should be provided in PDF (preferred), Microsoft Word or Excel, WordPerfect, or text (ASCII) file format. Provide documents that are not secured, written in English, and are free of any defects or viruses. Documents should not contain special characters or any form of encryption and, if possible, they should carry the electronic signature of the author.

Confidential Business Information. Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email, postal mail, or hand delivery/courier two well-marked

copies: One copy of the document marked "confidential" including all the information believed to be confidential, and one copy of the document marked "non-confidential" with the information believed to be confidential deleted. Submit these documents via email or on a CD, if feasible. DOE will make its own determination about the confidential status of the information and treat it according to its determination. Confidential information should be submitted to the Confidential QER email address: QERConfidential@hq.doe.gov.

Factors of interest to DOE when evaluating requests to treat submitted information as confidential include: (1) A description of the items; (2) whether and why such items are customarily treated as confidential within the industry; (3) whether the information is generally known by or available from other sources; (4) whether the information has previously been made available to others without obligation concerning its confidentiality; (5) an explanation of the competitive injury to the submitting person which would result from public disclosure; (6) when such information might lose its confidential character due to the passage of time; and (7) why disclosure of the information would be contrary to the public interest. It is DOE's policy that all comments may be included in the public docket, without change and as received, including any personal information provided in the comments (except information deemed to be exempt from public disclosure).

Issued in Washington, DC, on June 26, 2014.

Michele Torrusio,

QER Secretariat, QER Interagency Task Force, U.S. Department of Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Commission to Review the Effectiveness of the National Energy Laboratories

AGENCY: Department of Energy.

ACTION: Notice of Open Meeting.

SUMMARY: This notice announces an open meeting of the Commission to Review the Effectiveness of the National Energy Laboratories (Commission). The Commission was created pursuant to section 319 of the Consolidated Appropriations Act, 2014, Public Law 113-76, and in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended, 5

U.S.C. App. 2. This notice is provided in accordance with the Act.

DATES: Friday, July 18, 2014; 10:30 a.m.–4:00 p.m.

ADDRESSES: Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Karen Gibson, Designated Federal Officer, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585; telephone (202) 586–3787; email: crenel@hq.doe.gov.

SUPPLEMENTARY INFORMATION:

Background: The Commission was established to provide advice to the Secretary on the Department's national laboratories. The activities of the Commission will include, but are not limited to: whether the Department of Energy's (DOE) national laboratories—are properly aligned with the Department's strategic priorities; have clear, well understood, and properly balanced missions that are not unnecessarily redundant and duplicative; have unique capabilities that have sufficiently evolved to meet current and future energy and national security challenges; are appropriately sized to meet the Department's energy and national security missions; and are appropriately supporting other Federal agencies and the extent to which it benefits DOE missions. The Commission will determine whether there are opportunities to more effectively and efficiently use the capabilities of the national laboratories. The Commission will also analyze the effectiveness of the use of laboratory directed research and development (LDRD) to meet the Department of Energy's science, energy, and national security goals and evaluate the Department's oversight of LDRD-funded projects for compliance with statutory requirements and congressional direction.

Purpose of the Meeting: This meeting is the first meeting of the Commission.

Tentative Agenda: The meeting will start at 10:30 a.m. on July 18th. The tentative meeting agenda includes discussions with Hill staff, briefings on the national laboratory system, an introduction to prior and current studies focusing on the labs, a discussion with representatives of the National Laboratory Directors Council, and comments from the public. The meeting will conclude at 4:00 p.m.

Public Participation: The meeting is open to the public. Individuals who would like to attend must RSVP to Karen Gibson no later than 5:00 p.m. on Monday, July 14, 2014 by email at: crenel@hq.doe.gov. Please provide your name, organization, citizenship, and

contact information. Anyone attending the meeting will be required to present government-issued identification. Individuals and representatives of organizations who would like to offer comments and suggestions may do so at the end of the meeting. Approximately 30 minutes will be reserved for public comments. Time allotted per speaker will depend on the number who wish to speak but will not exceed 5 minutes. The Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Those who did not register in advance to attend the meeting and who wish to speak, should register to do so at the beginning of the meeting at 10:30 a.m. on July 18th.

Those not able to attend the meeting or who have insufficient time to address the committee are invited to send a written statement to Karen Gibson, U.S. Department of Energy, 1000 Independence Avenue SW., Washington DC 20585, or by email at: crenel@hq.doe.gov.

Minutes: The minutes of the meeting will be available by contacting Ms. Gibson at postal address or email address above.

Issued in Washington, DC, on June 24, 2014.

LaTanya R. Butler,

Deputy Committee Management Officer.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Wind and Water Power Technologies Office: Wind Energy Bat and Eagle Impact Minimization Technologies and Field Testing Opportunities

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice.

SUMMARY: The U.S. Department of Energy's Office of Energy Efficiency and Renewable Energy (EERE) invites public comment on its Request for Information (RFI) regarding a potential funding opportunity to advance the readiness of bat and eagle impact minimization technologies through investments in technology development and field testing.

DATES: Comments regarding the RFI must be received on or before July 25, 2014.

ADDRESSES: The complete RFI document is located at <https://eere-exchange.energy.gov/>.

FOR FURTHER INFORMATION CONTACT:

Responses to the RFI and questions should be sent via email or email attachment to WindMitigationRFI@ee.doe.gov. Further guidance can be found in the RFI document posted on EERE Exchange.

SUPPLEMENTARY INFORMATION: The mission of the Wind and Water Power Technology Office of DOE's Office of Energy Efficiency and Renewable Energy is to accelerate widespread U.S. deployment of clean, affordable, and reliable wind power to promote energy security, economic growth, and environmental quality. Pursuant to this mission, the Office funds research and development to address market barriers that affect the deployment of wind energy, including the effects of wind on wildlife. In permitting wind facilities and complying with state and federal laws protecting wildlife, such as the Endangered Species Act, Migratory Bird Treaty Act, and Bald and Golden Eagle Protection Act, developers and operators of wind energy facilities often must take measures to mitigate the potential impacts of their facilities on protected species.

While guidelines exist for siting wind facilities in the landscape and wind turbines within a facility to avoid impacts to wildlife, technologies to minimize impacts at operational facilities are for most species either in early stages of development or simply do not exist. Research in this area is ongoing, but significant advancements are needed to address the siting and permitting challenges currently faced by the wind industry.

In its RFI, EERE requests comments, information, and recommendations on the current state of wildlife impact minimization technologies, conditions under which technology vendors or developers would consider participating in a demonstration and validation campaign, and the conditions under which wind farm owner/operators would consider participating in a campaign to demonstrate, field-test, and validate such technologies. Additionally, EERE seeks input on a proposed framework for funding the advancement of wildlife impact minimization technologies aimed at reducing impacts to bats, eagles and other wildlife of concern, and on how to prioritize funding for research within this framework. The RFI is available at: <https://eere-exchange.energy.gov/>.
