

notify the Commission upon completion of the transmitter modifications and shall certify compliance with all applicable transmission system requirements.

47 CFR 74.796(b)(6) provides that operators who modify their existing transmitter by use of a manufacturer-provided modification kit must maintain with the station's records for a period of not less than two years, and will make available to the Commission upon request, a description of the nature of the modifications, installation and test instructions, and other material provided by the manufacturer, the results of performance-tests and measurements on the modified transmitter, and copies of related correspondence with the Commission. In addition, digital LPTV and TV translator operators who custom modify their transmitter must maintain with the station's records for a period of not less than two years, and will make available to the Commission upon request, a description of the modifications performed and performance tests, the results of performance-tests and measurements on the modified transmitter, and copies of related correspondence with the Commission.

Protection of Analog LPTV. In situations where protection of an existing analog LPTV or translator station without a frequency offset prevents acceptance of a proposed new or modified LPTV, TV translator, or Class A station, the Commission requires that the existing non-offset station install at its expense offset equipment and notify the Commission that it has done so, or, alternatively, negotiate an interference agreement with the new station and notify the Commission of that agreement.

47 CFR 74.798 requires all stations in the low power television services to provide notice of their upcoming digital transition to their viewers.

*Revised Information Collection Requirements:* The Commission removed the information collection requirements that were contained in 47 CFR 74.786(d) and (e), and the requirements related to resolving channel conflict from this collection. The requirements were "sunsetting" when operation on channels 52 to 69 went away on December 31, 2011. Therefore, since stations cannot operate on these channels, they cannot file for these channels. This means that the requirements in the rule sections mentioned above are no longer applicable or used by respondents (stations).

Federal Communications Commission.

#### SUPPLEMENTARY INFORMATION:

*Background:* The Committee was established in accordance with the Federal Advisory Committee Act, as amended, 5. U.S.C. App. The Committee is composed of eighteen members nominated by the ASC Executive Director and approved by the Chairman of the ASC in consultation with ASC members. ASCAC members represent a balance of expertise across the broad

range of industry participants, including appraisers, lenders, consumer advocates, real estate agents, and government agencies. All ASCAC members have extensive experience concerning the appraiser regulatory framework for federally related transactions.

The ASC oversees the real estate appraisal process as it relates to federally related transactions as defined in Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989. The 2010 Dodd-Frank Wall Street Reform and Consumer Protection Act included amendments to Title XI and expanded the ASC's authority to include rulemaking authority in four areas: (1) Temporary practice; (2) national registries; (3) information sharing; and (4) enforcement. The ASC is primarily seeking independent advice from ASCAC concerning sanctions ASCAC deems advisable for purposes of enforcement of regulations promulgated by the ASC to State appraiser regulatory programs.
