[Docket No. CP14-101-000]

City of Clarksville, Tennessee; Notice of Availability of the Environmental Assessment for the Proposed Clarksville Natural Gas Interconnect Pipeline Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared this environmental assessment (EA) for the Clarksville Natural Gas Interconnect Pipeline Project proposed by City of Clarksville, Tennessee (Clarksville) in the above-referenced docket. Clarksville requests authorization to construct pipeline facilities in Todd County, Kentucky and Montgomery County, Tennessee to provide access to additional natural gas sources to serve Clarksville's retail distribution system.

The EA assesses the potential environmental effects of the construction and operation of the Clarksville Natural Gas Interconnect Pipeline Project in accordance with the requirements of the National Environmental Policy Act of 1969. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Army Corps of Engineers participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

The proposed Clarksville Natural Gas Interconnect Pipeline Project includes the following facilities:

- 20.8 miles of 12-inch-diameter pipeline in Todd County, Kentucky; and
- a pressure-reducing valve station at milepost 0.0 in Todd County, Kentucky.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding.

In addition, the EA is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public

inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.
