SUPPLEMENTARY INFORMATION:**A. Purpose**

As a first step in assuring that Government contracts are not awarded to firms violating anti-trust laws, offerors on Government contracts must complete the certificate of independent price determination. The Contracting Officer will reject certificates where the offeror has deleted or modified portions of the certificate and has not furnished with the certificate a signed statement of the circumstances of disclosure of prices. Agencies are required to report to the Attorney General rejected offers where the offeror deleted or modified the certificate or the certificate is suspected of being false.

The information collection is required each time an offeror responds to a solicitation for firm-fixed price contract or fixed-price economic price adjustment contract unless the acquisition is: (1) Made under the simplified acquisition threshold; (2) at the request for technical proposals under two-step sealed bidding procedures; or (3) for utility services for which rates are set by law or regulation. The FAR rule requires a Certificate of Independent Price Determination so that contractors certify that the prices in their offer have been arrived at independently, have not been or will not be knowingly disclosed, and have not been submitted for the purpose of restricting competition. This clause does not apply to commercial items.

B. Annual Reporting Burden

A reassessment of FAR 3.103 and FAR 52.203-2 was performed. Based on the comprehensive reassessment performed, this information collection resulted in a slight decrease in the annual number of responses and an increase in the annual time burden from the previous information collection that was published in the **Federal Register** at 76 FR 37353 on June 27, 2011. The decrease in the annual number of responses was likely a result of updated Fiscal Year 2013 data obtained from the Federal Procurement Data System. The
