SUPPLEMENTARY INFORMATION:

A. Purpose

This information collection complies with Executive Order 13126, Prohibition on Acquisition of Products Produced by Forced or Indentured Child Labor. Executive Order 13126 requires that this prohibition be enforced within the federal acquisition system by means of: (1) A provision that requires the contractor to certify to the contracting officer that the contractor or, in the case of an incorporated contractor, a

responsible official of the contractor has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any product furnished under the contract and that, on the basis of those efforts, the contractor is unaware of any such use of child labor; and (2) A provision that obligates the contractor to cooperate fully in providing reasonable access to the contractor’s records, documents, persons, or premises if reasonably requested by authorized officials of the contracting agency, the Department of the Treasury, or the Department of Justice, for the purpose of determining whether forced or indentured child labor was used to mine, produce, or manufacture any product furnished under the contract.

The information collection requirements of the Executive Order are evidenced via the certification requirements delineated at FAR 22.1505, 52.212–3, 52.222–18, and 52.222–19.

To eliminate some of the administrative burden on offerors who must submit the same information to various contracting offices, the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) decided to amend the Federal Acquisition Regulation (FAR) to require offerors to submit representations and certifications electronically via the Business Partner Network (BPN), unless certain exceptions apply. Online Representations and Certifications Application (ORCA) was the specific application on the BPN to replace the paper based Representations and Certifications process. The change to the FAR was accomplished by FAR Case 2002–024. The BPN and ORCA systems have now been incorporated into the System for Award Management, also known as SAM.

B. Annual Reporting Burden

To date, there are 355,531 active registrants in SAM. Those registrants are required to complete the Representations and Certifications section of SAM. Of the 355,531 active registrants in SAM, 949 registrants identified their business concern as one that may supply an end product that is on the list of products requiring contractor certification as to Forced or Indentured Child Labor, identified by their country of origin. The 949 registrants will be used as the basis for the number of respondents. This number represents an increase from what was published in the **Federal Register** at 76 FR 42709 on July 19,

2011. No public comments were received in prior years that have challenged the validity of the Government's estimate.

Respondents: 949.

Responses per Respondent: 1.

Hours per Response: 0.325.

Total Burden Hours: 308.

BILLING CODE 6820-EP-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency Information Collection Activities: Proposed Collection; 30-Day Public Comment Request; Communications Testing for Comprehensive Communication Campaign for HITECH ACT

AGENCY: Office of the National Coordinator for Health Information Technology, Department of Health and Human Services.

ACTION: 30-Day notice of submission of information collection approval from the Office of Management and Budget and request for comments.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the National Coordinator for Health Information Technology (ONC), Department of Health and Human Services, announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). The ICR is for extending the use of the approved information collection assigned OMB control number 0955-0005, which expires on July 31, 2014. Prior to submitting that ICR to OMB, ONC seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments must be submitted by August 8, 2014.

ADDRESSES: Written comments may be submitted to

Information.CollectionClearance@hhs.gov or by calling (202) 690-6162.

FOR FURTHER INFORMATION CONTACT: To request additional information, please contact Penelope Hughes at *Penelope.Hughes@hhs.gov* or (202) 205.8658.

SUPPLEMENTARY INFORMATION:

Title: "Communications Testing for Comprehensive Communication Campaign for HITECH ACT."

Abstract: The Office of the National Coordinator for Health Information Technology (ONC) serves as the Health and Human Services (HHS) Secretary's principal advisor on the development, application, and use of health information technology (health IT). ONC is requesting an approval by OMB on an extension, to a previously approved generic clearance titled Communications Testing for Comprehensive Communication Campaign for HITECH ACT, 0955-0005, for collecting information through a variety of research methods for the purpose of developing and testing communications involving health information technology and health information privacy. ONC responsibilities include promoting the development of a nationwide health IT infrastructure that allows for electronic use and exchange of information and fostering the public understanding of health information technology, including educating the public about health information privacy. In order to fulfill these responsibilities, information from the public at large is necessary to determine what education is needed and what types of communication techniques will be most effective. Due to the rapidly evolving nature of health information technology, an extension of the original generic data collection is being requested to ensure that these education and communication efforts keep pace with technological advancements and the changing health information technology ecosystem. This information will be used to assess the need for communications on specific topics and to assist in the development and modification of communication messages. The data will help in tailoring print, broadcast, and electronic media communications and other materials for them to have powerful and desired impacts on target audiences. The data will not be used for the purposes of making policy or regulatory decisions.

The agency received no comments in response to the 60-day notice for the extension request published in the

Federal Register of April 3, 2014 (79 FR 18690).

Below we provide the Office of the National Coordinator for Health Information Technology's projected average estimates for the next three years:¹

Current Actions: New collection of information.

Type of Review: Extension.

Affected Public: Likely respondents include consumers as well as physicians, nurses and other health care providers.

Average Expected Annual Number of Activities: 6.

Respondents: 1,900.

Annual Responses: 11,400.

Frequency of Response: Once per request.

Average Minutes per Response: 15.

Burden Hours: 2850.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

Darius Taylor,

Information Collections Clearance Officer.
