

*Defense Services Proposed to be Sold:*  
See Annex attached.

(viii) *Date Report Delivered to Congress:* 1 July 2014

#### **POLICY JUSTIFICATION**

##### *United Kingdom—Tomahawk Block IV Torpedo Launched Land-Attack Missiles*

The United Kingdom (UK) has requested a possible sale of up to 65 Block IV All-Up-Round Torpedo Tube Launched Tomahawk Land-Attack Missiles, containers, engineering support, test equipment, operational flight test support, communications equipment, technical assistance, personnel training/equipment, spare and repair parts, and other related elements of logistics support. The estimated cost is \$140 million.

This proposed sale will contribute to the foreign policy and national security of the United States by improving the military capabilities of the United Kingdom and enhancing weapon system standardization and interoperability. The UK is a major political and economic power and a key democratic partner of the U.S. in ensuring peace and stability around the world.

The UK needs these missiles to replenish those expended in support of coalition operations. The proposed sale will enhance the UK's ability to engage in coalition operations along with the U.S. Navy. The UK, which already has Tomahawk missiles in its inventory, will have no difficulty absorbing these additional missiles.

The proposed sale of these missiles will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of additional U.S. Government or contractor personnel in the United Kingdom.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 14–30

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) Of the Arms Export Control Act

Annex

Item No. vii

##### (vii) *Sensitivity of Technology:*

1. The conventionally armed Tomahawk Block IV Land Attack Missile consists of the following classified components: Operational Embedded Software (OES), Weapons Control System Software and Mission Planning Software.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar advanced capabilities.

3. A determination has been made that the recipient government can provide substantially the same degree of protection for the technology being released as the U.S. Government. Support of the Tomahawk Land Attack Missile Conventional System to the

Government of the United Kingdom is necessary in the furtherance of U.S. foreign policy and national security objectives.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of the United Kingdom.

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* None

(viii) *Date Report Delivered to Congress:* 3 July 2014

**POLICY JUSTIFICATION***Egypt—Personnel Support Services*

The Government of Egypt requests a possible sale of personnel support services to support 140 U.S. Government and contractor representatives at nine locations. Services will include lodging, transportation, security, medical, and other related elements of program support. The estimated cost is \$69 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

Egypt has several Foreign Military Sales (FMS) cases that require in-country support from U.S. contractor, military and civilian personnel. Egypt has requested that the U.S. Air Force consolidate the relevant personnel support cases to maximize cost savings. This notification reports the cost for the past three years of this program and the proposed one-year extension.

The proposed sale of these services will not alter the basic military balance in the region.

This principal contractor will be DynCorps in McLean, Virginia. There are no known offset agreements proposed in connection with this proposed sale.

Implementation of this proposed sale will not require the assignment of additional U.S. government or contractor representatives to manage this program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
