Notice of Request for Tribal Nominees for the U.S. Extractive Industries Transparency Initiative (USEITI) Advisory Committee

AGENCY: Policy, Management and Budget, Interior.

ACTION: Notice.

SUMMARY: The U.S. Department of the Interior (Interior) is seeking nominations for individuals to be considered as Committee members and/or alternates to

serve on the U.S. Extractive Industries Transparency Initiative (USEITI) Advisory Committee (Committee). This notice solicits nominees representing Tribal governments and individual Indian mineral owners to fill two vacancies in the Government sector. Nominations should include a resume providing relevant contact information and an adequate description of the nominee's qualifications, including information that would enable the Department of the Interior to make an informed decision regarding meeting the membership requirements of the Committee. Nominees are encouraged to include supporting letters from constituencies, associations, Tribal Councils, or other organizations that indicate support for the nominee.

DATES: Submit nominations to the Committee by August 31, 2014.

ADDRESSES: You may submit nominations to the Committee by any of the following methods.

- Mail or hand-carry nominations to Ms. Rosita Compton Christian; Department of the Interior; 1849 C Street NW., MS 4211, Washington, DC 20240.
- Email nominations to USEITI@ios.doi.gov.

FOR FURTHER INFORMATION CONTACT: Rosita Christian at (202) 208-0272 or (202) 513-0597; fax (202) 513-0682; email Rosita.ComptonChristian@onrr.gov or useiti@ios.doi.gov; or via mail at the Department of the Interior; 1849 C Street NW., MS 4211, Washington, DC 20240.

SUPPLEMENTARY INFORMATION: Interior established the Committee on July 26, 2012, in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. App. 2), and with the concurrence of the General Services Administration. The Committee serves as the USEITI Multi-Stakeholder Group (MSG) and provides advice to the Secretary of the Interior (Secretary) on the design and implementation of the initiative. Specifically, the Committee:

- Serves as the MSG to oversee the U.S. implementation of the Extractive Industries Transparency Initiative (EITI), a global standard for governments to publicly disclose revenues received from oil, gas, and mining assets belonging to the government, with parallel public disclosure by companies of payments to the government (e.g. royalties, rents, bonuses, taxes, or other payments).
- Develops and recommends to the Secretary a fully-costed work plan, containing measurable targets and a timetable for implementation and incorporating an assessment of

capacity constraints. This plan will be developed in consultation with key EITI stakeholders and published upon completion.

- Provides opportunities for collaboration and consultation among stakeholders.
- Advises the Secretary and posts for consideration by other stakeholders proposals for conducting long-term oversight and other activities necessary to achieve EITI and compliant status.

The Committee consists of representatives from three stakeholder sectors. However, there currently are no committee members representing Tribal governments or individual Indian mineral owners. The sectors are:

1. Industry, including non-Federal representatives from the extractive industry, including oil, gas, and mining companies and industry-related trade associations.
2. Civil society, including organizations with an interest in extractive industries, transparency, and government oversight; members of the public; and public and/or private investors.
3. Government, including Federal, State, local, and Tribal governments, and individual Indian mineral owners.

Please note, the purpose of this notice is to fill the Tribal or individual Indian mineral owner positions on the government sector of the Committee because these unique perspectives are currently not represented. In addition to honoring the EITI principle of self-selection within the stakeholder sector, the following criteria will be considered in making final selections:

- (1) Understanding of and commitment to the EITI process
- (2) Ability to collaborate and operate in a multi-stakeholder setting
- (3) Access to and support from a relevant stakeholder constituency
- (4) Basic understanding of the extractive industry and/or revenue collection, or willingness to be educated on such matters

Individuals who are currently Federally registered lobbyists are ineligible to serve on any FACA and non-FACA boards, committees, or councils.

The Committee will meet quarterly or at the request of the Designated Federal Officer. Non-Federal members of the Committee will serve without compensation. However, we may pay the travel and per diem expenses of Committee members, if appropriate, under the Federal Travel Regulations.

Dated: June 23, 2014.

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection implements requirements of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) (ESA). There are no corresponding Service regulations for the ESA post-delisting monitoring requirement. This IC also implements the Migratory Bird Treaty Act (16 U.S.C. 704) and Service regulations in chapter

I, subchapter B of title 50 of the Code of Federal Regulations (CFR).

The American peregrine falcon was removed from the List of Endangered and Threatened Wildlife on August 25, 1999 (64 FR 46542). Section 4(g) of the ESA requires that all species that are recovered and removed from the List of Endangered and Threatened Wildlife (delisted) be monitored in cooperation with the States for a period of not less than 5 years. The purpose of this requirement is to detect any failure of a recovered species to sustain itself without the protections of the ESA. We work with relevant State agencies and other species experts to develop appropriate plans and procedures for systematically monitoring recovered wildlife and plants.

The American peregrine falcon has a large geographic distribution that includes a substantial amount of non-Federal land. Although the ESA requires that monitoring of recovered species be conducted for not less than 5 years, the life history of American peregrine falcons is such that it is appropriate to monitor this species for a longer period of time in order to meaningfully evaluate whether or not the recovered species continues to maintain its recovered status. The Monitoring Plan for the American Peregrine Falcon is available on our Web site at <http://www.fws.gov/endangered/esa-library/pdf/Peregrineplan2003.pdf>. Formal collection of monitoring data commenced in 2003 and will continue through 2015.

We will use the information supplied on FWS Forms 3-2307, 3-2308, and 3-2309 to review the status of the American peregrine falcon in the United States and determine if it remains recovered and, therefore, does not require the protections of the ESA:

(1) FWS Form 3-2307 (Peregrine Falcon Monitoring Form) addresses the reporting requirements to record observations on the nesting pair, and the numbers of eggs and young during each nest visit. Each territory will be visited at least two times.

(2) FWS Form 3-2308 (Peregrine Falcon Egg Contaminants Data Sheet) addresses the reporting requirements to record data on eggs collected opportunistically during a nest visit.

(3) FWS Form 3-2309 (Peregrine Falcon Feather Contaminants Data Sheet) addresses the reporting requirements to record data on feathers collected opportunistically during a nest visit. Once collected, the eggs and feathers are archived in a deep freeze for analysis at a later time.
