

**POLICY JUSTIFICATION***Egypt—Personnel Support Services*

The Government of Egypt requests a possible sale of personnel support services to support 140 U.S. Government and contractor representatives at nine locations. Services will include lodging, transportation, security, medical, and other related elements of program support. The estimated cost is \$69 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

Egypt has several Foreign Military Sales (FMS) cases that require in-country support from U.S. contractor, military and civilian personnel. Egypt has requested that the U.S. Air Force consolidate the relevant personnel support cases to maximize cost savings. This notification reports the cost for the past three years of this program and the proposed one-year extension.

The proposed sale of these services will not alter the basic military balance in the region.

This principal contractor will be DynCorps in McLean, Virginia. There are no known offset agreements proposed in connection with this proposed sale.

Implementation of this proposed sale will not require the assignment of additional U.S. government or contractor representatives to manage this program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

ARLINGTON, VA 22202-5408

JUL 1 2014

The Honorable John A. Boehner  
Speaker of the House  
U.S. House of Representatives  
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 14-21, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance to India for defense articles and services estimated to cost \$200 million. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

J. W. Rixey  
Vice Admiral, USN  
Director

See Annex attached.

(viii) *Date Report Delivered to Congress:* 1 July 2014

**POLICY JUSTIFICATION***India—UGM-84L Harpoon Missiles*

The Government of India has requested a possible sale of 12 UGM-84L Harpoon Block II Encapsulated Missiles, 10 UTM-84L Harpoon Encapsulated Training missiles, 2 Encapsulated Harpoon certification training vehicles, containers, spare and repair parts, support and test equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$200 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-India strategic relationship and to improve the security of an important partner which continues to be an important force for political stability, peace, and economic progress in South Asia.

This Harpoon missile system will be employed on the Indian Navy's Shishumar class submarine (Type-209) and will provide enhanced capabilities in defense of critical sea lines of communication. India has already purchased Harpoon missiles for integration on Indian Air Force Jaguar aircraft and Indian Navy P-8I maritime patrol aircraft. India will have no difficulty absorbing these additional missiles into its armed forces.

This proposed sale of Harpoon missiles will not alter the basic military balance in the region.

The principal contractors will be the Boeing Company in St Louis, Missouri; and Delex Systems Inc., in Vienna, Virginia. In accordance with the Indian Defense Procurement Policy, a contractor may be expected to conclude offset agreements with the Government of India but no offset agreement is currently known to have been proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor personnel to India. However, U.S. Government or contractor personnel in-country visits will be required on a temporary basis for program, technical, and management oversight and support requirements for approximately five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 14-21

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The UGM-84L Harpoon Encapsulated Block II missile system is classified Confidential. The Harpoon missile is a non-nuclear tactical weapon system currently in service in the U.S. Navy and in 28 other foreign nations. It provides a day, night, and adverse weather, standoff air-to-surface capability and is an effective Anti-Surface Warfare missile. The UGM-84L incorporates components, software, and technical design information that are considered sensitive. The following components being conveyed by the proposed sale that are considered sensitive and are classified Confidential include:

- a. The Radar Seeker
- b. The Guidance Control Unit GPS/INS System
- c. Operational Flight Program Software
- d. Missile operational characteristics and performance data

These elements are essential to the ability of the Harpoon missile to selectively engage hostile targets under a wide range of operations, tactical and environmental conditions.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the recipient country can provide the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of India.
