

an observer statement for dolphin-safe labeling purposes. Under the authority at § 216.91(a)(2)(iii)(B) and (a)(4)(ii), the AA has determined that observers, or an authorized representative of the observer program, operating in the following fisheries are qualified to issue observer statements and are authorized by this notice to issue such statements on or after the effective date of this notice:

- The American Samoa Pelagic Longline Fishery
- the Atlantic Bluefin Tuna Purse Seine Fishery
- the Atlantic Highly Migratory Species Pelagic Longline Fishery
- the California Deep-set Pelagic Longline Fishery
- the California Large-mesh Drift Gillnet Fishery
- the Hawaii Deep-set Longline Fishery
- the Hawaii Shallow-set Longline Fishery

The observer statements are intended to be used for the documentation of dolphin-safe status only. Mortality and serious injury determinations under Marine Mammal Protection Act (MMPA) Section 117 will continue to be made in accordance with current NMFS policy and protocols.

The determinations are also publicized on the NMFS WCR Web site at <http://www.westcoast.fisheries.noaa.gov>. In order for tuna product made from tuna harvested in one of the fisheries listed above to be labeled “dolphin safe,” it must be accompanied by an observer statement, provided an observer was on board the vessel and

the fishing trip began on or after the effective date of this notice. The observer statement must certify that no dolphins were killed or seriously injured in the sets or other gear deployments in which the tuna were caught and, if applicable, that no purse seine net was intentionally deployed on or used to encircle dolphins during the fishing trip.

Dated: July 8, 2014.

Samuel D. Rauch III,
*Deputy Assistant Administrator for
Regulatory Programs, National Marine
Fisheries Service.*
