

Exchange operates in a highly competitive market in which market participants can readily direct their order flow to competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed fee changes reflect this competitive environment.

**Self-Regulatory Organizations; BATS Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Related to Fees for Use of BATS Exchange, Inc.**

July 10, 2014.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on July 1, 2014, BATS Exchange, Inc. (the "Exchange" or "BATS") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as one establishing or changing a member due, fee, or other charge imposed by the Exchange under Section 19(b)(3)(A)(ii) of the Act<sup>3</sup> and Rule 19b-4(f)(2) thereunder,<sup>4</sup> which renders the proposed rule change effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

*A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change*

1. Purpose

The Exchange proposes to modify its fee schedule applicable to use of the Exchange in order to modify the way that, for purposes of tiered pricing on the Exchange's equities trading platform ("BATS Equities"), the Exchange calculates ADV, ADAV, and average daily TCV (as such terms are defined below). Similarly, the Exchange proposes to modify the way that, for purposes of tiered pricing applicable to use of the Exchange's equity options trading platform ("BATS Options"), the Exchange calculates ADV and TCV.

Currently, with respect to BATS Equities, the Exchange determines the liquidity adding rebate that it will provide to Members based on the Exchange's tiered pricing structure by excluding from the calculation of ADV,<sup>6</sup> ADAV,<sup>7</sup> and average daily TCV<sup>8</sup> any day that an Exchange System Disruption<sup>9</sup> occurs as well as the last Friday in June (the "Russell Reconstitution Day").

The Exchange excludes these days from the calculation of ADAV, ADV and TCV in order to avoid penalizing Members that might otherwise qualify for certain tiered pricing but that, because of special circumstances on a particular day, did not participate on the Exchange to the extent that they might have otherwise participated. Similarly, the Exchange believes that scheduled early market closes, which typically are the day before or after a holiday, may preclude some Members from submitting orders to the Exchange at the same level as they might

otherwise. The Exchange notes that it is not proposing to modify any of the existing rebates or the percentage thresholds at which a Member may qualify for certain rebates pursuant to the tiered pricing structure. Rather, as mentioned above, the Exchange is proposing to modify its fee schedule to exclude trading activity occurring on any day with a scheduled early market close from the calculation of ADAV, ADV and TCV.

The Exchange also currently applies a tiered pricing structure to BATS Options, determining the fees charged for removing liquidity and rebates provided for adding liquidity based on ADV,<sup>10</sup> ADAV,<sup>11</sup> and average daily TCV,<sup>12</sup> all of which exclude any day that an Exchange System Disruption<sup>13</sup> occurs. The Exchange proposes to modify the definitions of ADAV, ADV and TCV for BATS Options in order to exclude days with a scheduled early market close in a manner consistent with the proposed exclusion for BATS Equities described above. As is true for BATS Equities, the Exchange believes that scheduled early market closes, which typically are the day before or after a holiday, may preclude some Members from submitting orders to the Exchange at the same level as they might otherwise. The Exchange notes that it is not proposing to modify any of the existing rebates or fees or the percentage thresholds at which a Member may qualify for certain rebates or fees pursuant to the tiered pricing structure. Rather, as mentioned above, the Exchange is proposing to modify its fee schedule to exclude trading activity occurring on any day with a scheduled early market close from the calculation of ADAV, ADV and TCV.

The Exchange believes that eliminating days with a scheduled early market close from the definition of ADV, ADAV and TCV for BATS Equities and for BATS Options will provide Members with increased certainty as to

their monthly cost for trades executed on the Exchange.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6 of the Act.<sup>14</sup> Specifically, the Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act,<sup>15</sup> in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and other persons using any facility or system which the Exchange operates or controls. The Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive.

With respect to the proposed changes to the calculation of tiered pricing for adding liquidity to BATS Equities and for both removing liquidity from and adding liquidity to BATS Options, the Exchange believes that its proposal is reasonable because, as explained above, it will help provide Members with a greater level of certainty as to their level of rebates and costs for trading in any month where there is a scheduled early market close. The Exchange is not proposing to amend the thresholds a Member must achieve to become eligible for, or the dollar value associated with, the tiered rebates or fees. Eliminating the inclusion of any day with a scheduled early market close would, in many cases, be excluding a day that would otherwise lower a Member's ADV and/or ADAV as a percentage of average daily TCV. Thus, the proposed change will make the majority of Members more likely to meet the minimum or higher tier thresholds, incentivizing Members to increase their participation on the Exchange in order to meet the next highest tier. In addition, the Exchange believes that the proposed changes to its fee schedule are equitably allocated among Exchange constituents and not unfairly discriminatory as the methodology for calculating ADV, ADAV and TCV will apply equally to all Members of BATS Equities and equally to all Members of BATS Options.

Volume-based tiers such as the liquidity adding tiers maintained by the Exchange have been widely adopted, and are equitable and not unfairly

<sup>6</sup> As provided in the fee schedule, for purposes of BATS Equities pricing, "ADV" means average daily volume calculated as the number of shares added or removed, combined, per day on a monthly basis.

<sup>7</sup> As provided in the fee schedule, for purposes of BATS Equities pricing, "ADAV" means average daily volume calculated as the number of shares added per day on a monthly basis.

<sup>8</sup> As provided in the fee schedule, for purposes of BATS Equities pricing, "TCV" means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply.

<sup>9</sup> As provided in the fee schedule, for purposes of BATS Equities pricing, "Exchange Systems Disruption" means any day that the Exchange's system experiences a disruption that lasts for more than 60 minutes during regular trading hours.

<sup>10</sup> As provided in the fee schedule, for purposes of BATS Equities pricing, "ADV" means average daily volume calculated as the number of shares added or removed, combined, per day on a monthly basis.

<sup>11</sup> As provided in the fee schedule, for purposes of BATS Equities pricing, "ADAV" means average daily volume calculated as the number of shares added per day on a monthly basis.

<sup>12</sup> As provided in the fee schedule, for purposes of BATS Equities pricing, "TCV" means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply.

discriminatory because they are open to all members on an equal basis and provide higher rebates or lower fees that are reasonably related to the value to an exchange's market quality associated with higher levels of market activity, such as higher levels of liquidity provision and introduction of higher volumes of orders into the price and volume discovery process. Accordingly, the Exchange believes that the proposal is equitably allocated and not unfairly discriminatory because it is consistent with the overall goals of enhancing market quality. Further, the Exchange believes that a tiered pricing model not significantly altered by a day of atypical trading behavior which allows Members to predictably calculate what their costs associated with trading activity on the Exchange will be is reasonable, fair and equitable and not unreasonably discriminatory as it is uniform in application amongst Members and should enable such participants to operate their business without concern of unpredictable and potentially significant changes in expenses.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. The proposed change will help to promote intramarket competition by avoiding a penalty to Members for days when overall trading activity might be significantly lower than a typical trading day. As stated above, the Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if the deem fee structures to be unreasonable or excessive.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

The Exchange has neither solicited nor received written comments on the proposed rule change.

#### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>16</sup> and paragraph (f) of Rule 19b-4 thereunder.<sup>17</sup> At any time within 60 days of the filing of the proposed rule change, the Commission summarily may

temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
