AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), "Title IV of the Public Health Security and Bioterrorism Preparedness and Response Act of 2002: Drinking Water Security and Safety (Act) Renewal" (EPA ICR No. 2103.05, OMB Control No. 2040-0253) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through November 30, 2014. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before September 15, 2014.

SUPPLEMENTARY INFORMATION:

Once in the system, select "search," then key in the docket ID number identified in this document.

What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under the **DATES** section.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What information collection activity or ICR does this apply to?

Affected entities: Entities potentially affected by this action are community water systems serving more than 3,300 persons.

Title: Title IV of the Public Health Security and Bioterrorism Preparedness and Response Act of 2002: Drinking Water Security and Safety (Act).

ICR numbers: EPA ICR No. 2103.05; OMB Control No. 2040-0253.

ICR status: This ICR is currently scheduled to expire on November 30, 2014. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40

of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 1433 of the Safe Drinking Water Act, as amended by the Bioterrorism Act requires each community water system serving a population of more than 3,300 people to conduct a vulnerability assessment of its water system and to prepare or revise an emergency response plan that incorporates the results of the vulnerability assessment. These requirements are mandatory under the statute. EPA will continue to use the information collected under this ICR to determine whether community water systems have conducted vulnerability assessments and prepared or revised emergency response plans in compliance with Section 1433. EPA is required to protect all vulnerability assessments and all information derived from them from disclosure to unauthorized parties and has established an Information Protection Protocol describing how that will be accomplished.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 117.9 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 80.

Frequency of response: Once.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 8,994.

Estimated total annual costs: \$77,252. This includes an estimated burden cost of \$1,035/respondent and an estimated cost of \$16,849 for capital and maintenance/operational costs.

Are there changes in the estimates from the last approval?

There is no decrease in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This reflects EPA's continued need to collect documents that were included in the original estimate, but still have not been submitted to the Agency.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT** section.

Dated: July 7, 2014.

Peter C. Gravatt,

Director, Office of Ground Water and Drinking Water.
