Approval and Promulgation of Implementation Plans; State of Missouri, Auto Exhaust Emission Controls

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking direct final action to approve the State Implementation Plan (SIP) revision submitted by the state of Missouri on January 14, 2014, for the purpose of removing an outdated rule. This action amends the SIP to remove a rule that was originally approved in 1972 but has now been rescinded. The rule's purpose was to control emissions from all vehicles subject to required vehicle safety inspections in areas outside of the Kansas City, Springfield, and St. Louis metropolitan areas. Vehicle manufacturers now produce newer technology in exhaust emissions equipment in order to meet more stringent Federal motor vehicle standards.

DATES: This direct final rule will be effective on September 16, 2014, without further notice, unless EPA receives adverse comment by August 18, 2014. If EPA receives adverse comment, we will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.
