Abstract: The United States Environmental Protection Agency (EPA) is proposing to renew an information collection request for the Federal Implementation Plans to Reduce Interstate Transport of Fine Particulate Matter and Ozone (Transport Rule) to allow for future implementation of the rule. The Transport Rule was published in the **Federal Register** on August 8, 2011 (76 FR 48208)¹ and compliance obligations were originally scheduled to

¹ A supplemental rule extending the Transport Rule's ozone-season NO_x requirements to sources in five additional states was published in the **Federal Register** on December 27, 2011 (76 FR 80760).

commence on January 1, 2012.

However, the U.S. Court of Appeals for the District of Columbia Circuit (D.C. Circuit) stayed the rule prior to implementation and subsequently issued an opinion vacating the rule. On April 29, 2014, the U.S. Supreme Court reversed the D.C. Circuit opinion vacating the Transport Rule. On June 26, 2014 the U.S. Department of Justice filed a motion on EPA's behalf at the D.C. Circuit seeking to have the stay lifted and to allow compliance obligations under the rule to commence as of January 1, 2015. The D.C. Circuit has not yet ruled on that motion.

Once implemented, the Transport Rule's requirements would incorporate and supersede the existing requirements under the Clean Air Interstate Rule (CAIR). CAIR's requirements, in turn, incorporated certain requirements under the NO_x SIP Call. The Transport Rule includes new reporting requirements and, like CAIR and the NO_x SIP Call, combines these requirements with existing requirements from the Acid Rain Program (ARP) under Title IV of the Clean Air Act (CAA) Amendments of 1990. Each of these existing requirements has an approved ICR in place. All data received by EPA will be treated as public information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

Form numbers: None.

Respondents/affected entities: Entities potentially affected by this action are those which are subject to the Federal Implementation Plans: Interstate Transport of Fine Particulate Matter and Ozone (76 FR 48208, Aug. 8, 2011) and Federal Implementation Plans for Iowa, Michigan, Missouri, Oklahoma, and Wisconsin (76 FR 80760, Dec. 27, 2011).

Respondent's obligation to respond: Mandatory (Sections 110(a) and 301(a) of the Clean Air Act).

Estimated number of respondents: EPA estimates that there are 1,305 (1,201 industry and 104 state or local) respondents that will conduct monitoring in accordance with Part 75.

Frequency of response: Yearly, quarterly, occasionally.

Total estimated burden: 188,001 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$26,718,842 (per year), includes \$13,150,678 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase of 2800 in the hours in the total

estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to the inclusion of 100 hours annually per state (28 states) to prepare optional State Implementation Plan submissions to reallocate emission allowances, which was inadvertently omitted from the original rule ICR Supporting Statement.

Spencer W. Clark,

Acting Division Director, Collection Strategies Division.

AGENCY: Federal Communications Commission (FCC).

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3502-3520), the FCC invites the general public and other Federal agencies to take this opportunity to comment on the following information collection.

Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimates; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB Control Number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB Control Number.

DATES: Written PRA comments should be submitted on or before August 25, 2014. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should

advise the FCC contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Nicholas A. Fraser, Office of Management and Budget (OMB), via fax at 202-395-5167, or via the Internet at *Nicholas_A.Fraser@omb.eop.gov* and to Leslie F. Smith, Office of Managing Director (OMD), Federal Communications Commission (FCC), via the Internet at *Leslie.Smith@fcc.gov*. Frequency of Response: On occasion, one time, annual and biennial reporting requirements, recordkeeping requirement, and third party disclosure requirements.

Obligation to Respond: Mandatory as required by section 222 of the Communications Act of 1934, as amended, 47 U.S.C. 222.

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: Section 222 of the Communications Act of 1934, as amended, 47 U.S.C. 222, establishes the duty of telecommunications carriers to protect the confidentiality of its customers' proprietary information. This Customer Proprietary Network Information (CPNI) includes personally identifiable information derived from a customer's relationship with a provider of telecommunications services. This information collection implements the

statutory obligations of section 222. These regulations impose safeguards to protect customers' CPNI against unauthorized access and disclosure. In March 2007, the Commission adopted new rules that focused on the efforts of providers of telecommunications services to prevent pretexting. These rules require providers of telecommunications services to adopt additional privacy safeguards that, the Commission believes, will limit pretexters' ability to obtain unauthorized access to the type of personal customer information from carriers that the Commission regulates. In addition, in furtherance of the Telephone Records and Privacy Protection Act of 2006, the Commission's rules help ensure that law enforcement will have necessary tools to investigate and enforce prohibitions on illegal access to customer records.

Federal Communications Commission.

Secretary, Office of the Secretary, Office of the Managing Director.
