Abstract: The ARRA provides \$4.3 billion for the Race to the Top Fund (referred to in the statute as the State Incentive Grant Fund). This is a competitive grant program. The purpose of the program is to encourage and reward States that are creating the conditions for education innovation and reform; achieving significant improvement in student outcomes, including making substantial gains in student achievement, closing achievement gaps, improving high school graduation rates, and ensuring student preparation for success in college and careers; and implementing ambitious plans in four core education reform areas: (a) Adopting internationally-benchmarked standards and assessments that prepare students for success in college and the workplace; (b) building data systems that measure student success and inform teachers and principals in how they can improve their practices; (c) increasing teacher effectiveness and achieving equity in teacher distribution; and (d) turning around our lowest-achieving schools.

The U.S. Department of Education (the Department) will collect this data from the 12 Race to the Top grantee states to inform its review of grantee implementation, outcomes, oversight, and accountability. The Department will use these forms to inform on-site visits, “stocktake” meetings with Implementation and Support Unit (ISU) leadership at the Department, and annual reports for individual grantees and the grant program as a whole.
