

Annual and 54th Month Evaluation

Annual and 54th month evaluation criteria are specifically defined in Attachment J-10, "Annual and 54th Month Evaluation Criteria Measures Table," of the BFCC-QIO SOW; the criteria for evaluating each deliverable are identified in Section F ("Deliverables or Performance") of the 11th SOW. Further, the Contracting Officer will use the Contractor Performance Assessment Reporting System (CPARS) criteria in performing evaluations: Quality, Schedule/ Timeliness, Cost/Price Control, Business Relations, Management, and Small Business. Performance on the evaluation criteria defined in Attachment J-10 will be considered for assessment of the Quality sub-factor for the CPARS assessment.

Overall Contract Evaluation

The results of the annual (12, 24, 36, 48th month) and 54th month evaluation periods, in addition to ongoing monitoring activities, will be used to determine how the contractor performed on the overall contract. If we choose, we may notify the BFCC-QIO of our intention not to renew the BFCC-QIO contract and inform the BFCC-QIO of their rights under the current statute.

Any failure at one or more of the annual or 54th month evaluations for any Task may result in the BFCC-QIO receiving an adverse past performance evaluation. Further, failure may impact on the BFCC-QIO's ability to continue similar work in or eligibility for future QIO Program awards.

We reserve the right at any point, prior to the notification of our intent not to renew the contract, to revise measures or adjust the expected minimum thresholds for satisfactory performance or remove criteria from a

Task evaluation protocol for any reason, including, but not limited to, data gathered based on experience with the amount of improvement achieved during the contract cycle or in pilot projects currently in progress, information gathered through evaluation of the BFCC-QIO performance overall, or any unforeseen circumstances. Further, in accordance with standard contract procedures, we reserve the right at any time to discontinue all or part of one or more Tasks for one or more states or territories in the QIO area or any other part of this contract, regardless of BFCC-QIO performance on the Task.

Title: Temporary Assistance for Needy Families/National Directory of New Hires Match Results Report.

OMB No.: 0970-0311.

Description

Section 453(j)(3) of the Social Security Act (the Act) allows for matching between the National Directory of New Hires (maintained by the Federal Office of Child Support Enforcement (OCSE)) and State TANF Agencies for purposes of carrying out responsibilities under programs funded under part A of Title IV of the Act. To assist OCSE and the Office of Family Assistance (OFA) in measuring savings to the TANF program attributable to the use of NDNH data matches, the State TANF Agencies have agreed to provide OCSE with a written description of the performance outputs and outcomes attributable to the State TANF Agency's use of NDNH match results. This information will help OCSE demonstrate how the NDNH supports the OCSE's mission and strategic goals.

Title: State High Performance Bonus System (HPBS) Transmission File Layouts for HPBS Work Measures

OMB No.: 0970-0230

Description: There is no longer a High Performance Bonus associated with this information collection. The Deficit Reduction Act of 2005 (Pub. L. 109-171) eliminated the funding for the High Performance Bonus (HPB), but we are still requesting that States continue to submit data necessary to calculate the work measures previously reported under the HPB.

Specifically, The TANF program was reauthorized under the Deficit Reduction Act of 2005. The statute eliminated the funding for the HPB under section 403(a)(4). Nevertheless the Department is required under section 413(d) to annually rank State performance in moving TANF recipients into private sector employment. We are, therefore, requesting that States continue to transmit monthly files of

adult TANF recipients necessary to calculate the work measures performance data. To the extent States do not provide the requested information, we will extract the matching information from the TANF Data Report. This may result in calculation of the work performance measures based on sample data, which would provide us less precise information on States' performance.

The Transmission File Layouts form provides the format that States will continue to use for the quarterly electronic transmission of monthly data on TANF adult recipients. States that have separate TANF-MOE files on these programs are also requested to transmit similar files. We are not requesting any changes to the Transmission File Layouts form.

Respondents: Respondents may include any of the 50 States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.
