Any interested person may file written comments with the committee by forwarding the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has instituted stringent procedures for entrance onto the NIH campus. All visitor vehicles, including taxicabs, hotel, and airport shuttles will be inspected before being allowed on campus. Visitors will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit.

Information is also available on the Institute's/Center's home page: www.niddk.nih.gov/fund/divisions/DEA/Council/coundesc.htm, where an agenda and any additional information for the meeting will be posted when available.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA)

will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Identifying Core Competencies of Peer Workers in Behavioral Health Services (Behavioral Health Services—NEW)

SAMHSA's Center for Mental Health Services' project, Bringing Recovery Supports to Scale Technical Assistance Center Strategy (BRSS TACS) is requesting the Office of Management and Budget's (OMB) approval for a data collection project entitled, "Identifying Core Competencies of Peer Workers in Behavioral Health Services." The BRSS TACS team intends to use two instruments to collect original data to inform the ongoing development of core competencies for peer workers in behavioral health care services. These instruments are:

- Core Competencies Survey with Peer Workers
- Telephone Interview of Peer Workers

The primary purpose for this information is to appraise the importance of specific competencies to the work of peer workers who are currently employed in behavioral health settings. The Core Competencies Survey will collect peer workers' ratings of the importance of different competencies to their work. The Telephone Interview of Peer Workers will collect peer workers' experiences with and opinions about the competencies on the survey. They will also be asked how they might use the competencies in their work. The Core Competencies Survey and the Telephone Interview are seen as critical to the development of core competencies for peer workers because they integrate the perspective of people who are currently employed as peer workers in the behavioral health care
