**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Part 52**

[EPA-R10-OAR-2011-0609; FRL-9914-48-Region 10]

**Approval and Promulgation of Implementation Plans; Alaska: Interstate Transport of Pollution**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The EPA is approving the State Implementation Plan (SIP) submittals from Alaska to address the interstate transport provisions of the Clean Air Act (CAA) for the 2006 fine particulate matter (PM<sub>2.5</sub>), 2008 ozone,

and 2008 lead (Pb) National Ambient Air Quality Standards (NAAQS). The CAA requires that each SIP contain adequate provisions prohibiting air emissions that will have certain adverse air quality effects in other states. The EPA has determined that Alaska's SIP submittals on March 29, 2011, and July 9, 2012, contain adequate provisions to ensure that air emissions in Alaska do not significantly contribute to nonattainment or interfere with maintenance of the 2006 PM<sub>2.5</sub>, 2008 ozone, and 2008 Pb NAAQS in any other state.

**DATES:** This final rule is effective on September 3, 2014.

**ADDRESSES:** The EPA has established a docket for this action under Docket Identification No. EPA-R10-OAR-2011-0609. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information

may not be publicly available, i.e., Confidential Business Information or other information the disclosure of which is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at EPA Region 10, Office of Air, Waste, and Toxics, AWT-107, 1200 Sixth Avenue, Seattle, Washington 98101. The EPA requests that you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. #### SUPPLEMENTARY INFORMATION:

Throughout this document wherever “we,” “us” or “our” is used, it is intended to refer to the EPA. Information is organized as follows:

#### Table of Contents

- I. Background
- II. Final Action
- III. Statutory and Executive Order Reviews

#### I. Background

On March 29, 2011, and July 9, 2012, Alaska submitted SIP revisions to the EPA demonstrating that the Alaska SIP meets the interstate transport requirements of CAA section 110(a)(2)(D)(i) for the 2006 PM<sub>2.5</sub>, 2008 ozone, and 2008 lead NAAQS. On April 28, 2014, we proposed approval of Alaska’s submittals (79 FR 23303). An explanation of the CAA requirements and implementing regulations that are met by these SIP revisions, a detailed explanation of the revisions, and the EPA’s reasons for the proposed action were provided in the notice of proposed rulemaking on April 28, 2014, and will not be restated here. The public comment period for our proposed action ended on May 28, 2014. We received one comment expressing support for EPA’s proposed approval of the state’s interstate transport SIP submission.

#### II. Final Action

The EPA is approving the SIP submittals from Alaska on March 29, 2011, and July 9, 2012, to address the interstate transport provisions of the CAA section 110(a)(2)(D)(i)(I) for the 2006 PM<sub>2.5</sub>, 2008 ozone, and 2008 Pb NAAQS. The EPA has determined that Alaska’s SIP submittals on March 29, 2011, and July 9, 2012, contain adequate provisions to ensure that air emissions in Alaska do not significantly contribute to nonattainment or interfere with maintenance of the 2006 PM<sub>2.5</sub>, 2008 ozone, and 2008 Pb NAAQS in any other state.

#### III. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices,

provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because this action does not involve technical standards; and does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and the EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides

that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 3, 2014. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 52****[EPA–R06–OAR–2010–0332; FRL–9914–45–Region 6]****Approval and Promulgation of Implementation Plans; Texas; Reasonably Available Control Technology for the 1997 8-Hour Ozone National Ambient Air Quality Standard****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is approving revisions to the Texas State Implementation Plan (SIP) as it applies to the volatile organic compound (VOC) sources in the offset lithographic printing source category. We are approving revisions to the regulations for this source category as they apply in the Dallas/Fort Worth (DFW), El Paso and Houston/Galveston/Brazoria (HGB) areas. These revisions are based on the recommendations for Reasonably Available Control Technology (RACT) in the Control Technique Guideline (CTG) issued in 2006 entitled, “Lithographic Printing Materials and Letterpress Printing Materials.” We are also approving the corresponding RACT analysis for this category for both the HGB and DFW 1997 8-hour ozone nonattainment areas. The EPA is approving these revisions pursuant to the federal Clean Air Act (the Act, CAA) and consistent with the EPA’s guidance.

**DATES:** This final rule is effective on September 3, 2014.

**ADDRESSES:** EPA has established a docket for this action under Docket ID No. EPA–R06–OAR–2010–0332. All documents in the docket are listed on the <http://www.regulations.gov> Web site. - III. Statutory and Executive Order Reviews

**I. Background**

The background for today’s final rule is discussed in our March 12, 2014 proposal to approve revisions to the Texas SIP (79 FR 13963). In that action, we proposed to approve one submittal in full, and portions of two separate submittals: A Texas SIP revision submitted by the Texas Commission on

Environmental Quality (TCEQ) in April, 2010, which updates the regulations that apply to offset lithographic printing based on the 2006 CTG for this category, and the portions of two other Texas SIP revisions submitted by the TCEQ in April, 2010, containing a RACT analysis for this source category for the DFW and the HGB areas. The TCEQ SIP submittals we proposed to approve March 12, 2014, and which we are approving in this final action are:

(a) VOC CTG Update: CTG Category Offset Lithographic Rulemaking, adopted on March 10, 2010 and submitted April 5, 2010, providing rule revisions to 30 TAC, Chapter 115 Control of Air Pollution from Volatile Organic Compounds, Subchapter E, Division 4, “Offset Lithographic Printing” which apply to offset lithographic printing lines located in the Dallas-Fort Worth (Collin, Dallas, Denton, Ellis, Johnson, Kaufman, Parker, Rockwall, and Tarrant counties), El Paso, and Houston-Galveston-Brazoria (Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery and Waller counties) areas. This submittal addresses recommendations for Reasonably Available Control Technology (RACT) in the Control Technique Guideline (CTG) issued in 2006 entitled, “Lithographic Printing Materials and Letterpress Printing Materials” for the DFW and HGB areas, and also updates the rules for this source category for DFW, El Paso, and HGB.

(b) a portion of the 2010 HGB Attainment Demonstration SIP Revision for the 1997 8-hour Ozone Nonattainment Area, the RACT Analysis for the Offset Lithographic CTG Category, adopted March 10, 2010 and submitted April 6, 2010, and

(c) a portion of the 2010 DFW RACT, Rule, and Contingency SIP Revision for
