

replace the requirements of the 2007 Consent Decree, which would ultimately be rescinded. A number of issues that were raised during the initial public comment period on the DEA are still relevant to the revised proposed action. Therefore, the Service's DEA also has included a response to comments to explain how those issues are handled in MDIFW's revised ITP and the Service's revised DEA.

Next Steps

We will evaluate the revised ITP and comments we receive on the Service's revised DEA to determine whether the permit application meets the requirements of section 10(a) of the ESA (16 U.S.C. 1531 *et seq.*). We will also evaluate whether issuance of a section 10(a)(1)(B) permit would comply with section 7 of the ESA by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether to issue a permit. If the requirements are met, we will issue the permit to the applicant.

Authority

This notice is provided pursuant to section 10(c) of the ESA and the National Environmental Policy Act regulations (40 CFR 1506.6).

Dated: July 22, 2014.

Endangered and Threatened Wildlife and Plants; Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (USFWS), invite the public to comment on the following applications we've received for permits to authorize take of federally listed species. Although the Endangered Species Act (Act) prohibits the take of species listed as endangered or threatened under the Act, the USFWS may issue permits authorizing the take of endangered or threatened species if certain conditions are met by the

applicant, and when such take will not appreciably reduce the likelihood of the survival and recovery of the species in the wild. The Act requires that we invite public comment before we issue these permits.

DATES: We must receive any written comments on or before September 5, 2014.

ADDRESSES: Send written comments by U.S. mail to the Regional Director, Attn: Thomas J. Magnuson, U.S. Fish and Wildlife Service, Ecological Services, 5600 American Blvd. West, Suite 990, Bloomington, MN 55437-1458; or by electronic mail to permitsR3ES@fws.gov.

FOR FURTHER INFORMATION CONTACT: Thomas J. Magnuson, (612) 713-5467.

SUPPLEMENTARY INFORMATION:

Background

We invite public comment on the following permit applications for certain activities with federally listed species authorized by section 10(a)(1)(A) of the Act (16 U.S.C. 1531 *et seq.*) and our regulations governing the taking of endangered species in the Code of Federal Regulations (CFR) at 50 CFR part 17. Submit your comments, or request for a copy of the complete application to the mailing address or email address shown in **ADDRESSES**.

Notice of Availability of Draft Habitat Conservation Plan; Receipt of Application for Incidental Take Permit; Pioneer Trail Wind Farm, LLC

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: Pursuant to the Endangered Species Act (ESA) and the National Environmental Policy Act (NEPA), we, the U.S. Fish and Wildlife Service (Service), have received an incidental take permit (ITP) application, draft habitat conservation plan (HCP), and a draft Implementing Agreement (IA) from Pioneer Trail Wind Farm, LLC (applicant), located in Ford and Iroquois Counties, Illinois. If approved, the ITP would authorize incidental take of two species of bats (covered species): the Indiana bat, a federally endangered species, and northern long-eared bat, proposed for Federal listing under the ESA. In accordance with the NEPA, the Service has prepared a draft Environmental Assessment (EA) in response to the permit application. We
